

the Auburn Alumnews

AUBURN ALUMNI ASSOCIATION

JANUARY, 1965

AUBURN, ALABAMA

TOPS IN PRE-MED—Joseph Anderson (right) recently received the "Outstanding Freshman Award" for students in pre-medicine at Auburn. Anderson, who holds a 2.85 (out of a possible 3.0) grade point average, will be recognized in Auburn's annual Honors Day program this spring. Above he receives a medical dictionary from Frank Salter of Auburn, president of the Gamma Chapter of Alpha Epsilon Delta, a national honorary fraternity for pre-medical students.

AT AUBURN COMMENCEMENT—Renewing acquaintances and making some new ones at Auburn University's fall commencement and reception are Dr. Paul Haley (c), vice chairman of the AU Board of Trustees; Dr. Harry Philpott (l), vice president of the University of Florida and commencement speaker; Dr. Frank Samford of the AU Board of Trustees. Auburn awarded 439 degrees at the exercises.

For Ten New Doctoral Trainees—

AU Gets NASA Grant

The National Aeronautics and Space Administration has awarded Auburn a \$184,000 grant to support 10 new doctoral trainees in space-related sciences. New trainees will begin studies next September and, like those previously chosen for the program, will receive support for three years of graduate work, according to Dr. William Vann Parker, dean of the Auburn Graduate School.

Auburn has now received a total of \$508,000 from the NASA doctoral training program, in which it began participating in 1963 with 10 trainees. Ten more students were added last year. The first group of NASA trainees will begin their last year of study under the program in September, and thus Auburn will have at that time a total

of 30 doctoral students working under NASA support.

Space-related sciences at Auburn approved for the NASA program are Agricultural Engineering, Agronomy and Soils, Animal Science, Botany and Plant Pathology, Chemistry, Electrical Engineering, Mathematics, Mechanical Engineering, Physics, and Zoology-Entomology.

Graduate students working under the NASA program receive a basic stipend of \$2,400 per annum plus dependency benefits and a \$200 per year escalation allowance up to a total of \$3,400 per year. NASA grants not only cover the cost of these stipends but also provide funds for faculty augmentation, visiting lecturers, and supplies in the approved study areas. Such funds must be expended directly for improvements in course content that benefit the NASA trainees. "However," Dr. Wilford S. Bailey, associate graduate dean notes, "such improvements also benefit the total graduate program."

"In fact," Dr. Bailey continues, "much of the improved quality in Auburn Graduate Education is due to the direct and indirect benefits of such government-supported doctoral programs as those of NASA, the National Defense Education Act, the U.S. Public Health Service, and the National Science Foundation."

Auburn currently has 25 students working under grants from the National Defense Education Act; fourteen new NDEA fellowships have been approved for next fall. Other graduates studying here under government-sponsored programs include: three National Science Foundation cooperative fellows, five NSF graduate trainees, one U. S. Public Health Service fellow, and seven studying under grants from the U.S. Office of Education. All of these programs pay stipends to students and provide benefits to the University similar to those of the NASA program.

Nine Earn Honors

At graduation exercises here on Dec. 16, Auburn awarded 439 degrees—378 Bachelor's and 61 Master's. Speaker for the fall quarter commencement was Dr. Harry M. Philpott, vice president of the University of Florida, who told the graduates that "discontent with yourself and with your world is essential to constructive living."

Among those graduating were nine who achieved distinction and received diplomas with honor designations.

Graduating with *highest honor* was Raymond Allen Heaton of Birmingham, who received a B.S. in Electrical Engineering.

Completing their college careers with *high honor* were Cecil Wayne Sowell of Memphis, B.S. in Building Construction, and Mary Frances Ramey of Mobile, B.A. in Science and Literature.

Graduating with *honor* were Gerald Barnett Crowley of Ashford, B.S., agriculture; Janie Elizabeth Smith Pirtle of Montgomery, B.S., education; Lura Ann Raulins of Atlanta, Ga., B.S. education; Thomas Rush Clements of Birmingham, B.S., aerospace engineering; Dennis Neal Scogin of Birmingham, B.S., aerospace engineering; and Philip John Young of Santa Fe, New Mexico, B.S., School of Science and Literature.

Phi Kappa Phi Initiates Fifty-One

The Auburn chapter of Phi Kappa Phi celebrated its golden anniversary here on Dec. 8 with the initiation of 51 new members and an address by its national president, Dr. A. M. Guhl, professor of zoology at Kansas State University.

The highest academic honorary at Auburn, Phi Kappa Phi requires that its initiates rank in the top five per cent of their class. Since the first Phi Kappa Phi initiation here in 1914, the Auburn chapter has tapped 2,814 of the most outstanding young scholars on campus.

Among earlier initiates into Phi Kappa Phi were Charles Allen Cary, Arthur St. Charles Dunstan, Bennett Battle Ross, Charles Coleman Thach, and John J. Wilmore—all men who served with such distinction that buildings on campus have been named in their honor.

December initiates in Phi Kappa Phi included 31 undergraduates and 20

graduate students. Undergraduates honored were: James Arthur Bedsole of Birmingham; Douglas M. Cox of Elk Horn, Ky.; Gerald Barnett Crowley of Ashford; Karen L. Dark of Alexander City; Kenneth Gordon Dixon of Jamestown, Tenn.

Donald Nile Foss of Pensacola, Fla.; Delbert J. Krahwinkel, Jr., of Owensboro, Ky.; Jeanne Ray McKinney of Lafayette; Suzanne McLendon of Montgomery; April McDade McMillan of Livingston; Einar Eugene Mikkelsen of Summerdale; Virginia Carroll Miller of Auburn.

Alan Homer Mumm of Fairhope; Loys

A \$5,000 BOOST FOR THE LIBRARY—State VFW Commander Cecil Brown of Ft. Payne (left) presents a \$5,000 check for the Auburn Library to Joseph B. Sarver, Jr., director of the Auburn Development Program. Looking on is Luther G. Ray, commander of the Fifth VFW District of Alabama, in which Auburn is located. The Alabama VFW has already contributed a total of \$22,500 to the Library here to establish a Veterans Memorial Collection for the purpose of fighting Communism with knowledge. The goal for the collection is \$50,000.

Behind the Headlines—

With The Library—All Is Not Well

The true University of these days is a Collection of Books—Thomas Carlyle

Occasionally we have the disturbing experience of meeting an alumnus with the illusion that all is now well with the Auburn University Library. Be not deceived—despite considerable progress, library development here still lags far behind that at the majority of comparable universities in this area.

It is true that we do now have a beautiful, well-designed, spacious library building and that alumni and friends have contributed approximately three-quarters of a million dollars to purchase new books. Another encouraging fact is that several alumni have developed a continuing interest in the library and that some contributions of books and money come in fairly regularly now. But the job is far from done. Let us look at some facts that support this conclusion.

In 1958, the Alabama Education Commission, after making a thorough study, recommended to the Governor and the Legislature immediate steps to raise the number of volumes in Auburn's library to 500,000. The library then contained 250,000 volumes. Today it contains 362,923—a sizeable increase but still far from the minimum recommended in 1958. During the years since 1958, Auburn's enrollment has jumped from 8,517 to 10,756. During this same period enrollment of graduate students, for whom a wide selection of books is essential, doubled: there were 672 graduate students in the fall of 1958 and 1,248 this past fall.

Library figures from other universities also suggest how much remains to be done here. Current holdings of the

University of Alabama Library total 780,106 volumes—more than double Auburn's stock. Seven Southern universities have libraries with holdings exceeding a million volumes. These are the Universities of Florida, Kentucky, North Carolina, Texas, and Virginia and Duke and Louisiana State Universities. At three of these—Duke, Texas, and North Carolina—the volumes in excess of a million exceed the total holdings of Auburn's library.

These facts indicate that those of us who wish to see Auburn become a truly great university cannot forget about library needs for a long, long time.

The Right Answer—Two or three years ago a friend told us of a new trend in psychiatry, begun, if we remember correctly, by a practitioner in Boston. The new approach involved a tough line in answer to the irrational statements of patients. The most common professional response was a two-word, Army-vintage phrase that we soften in civilian life to the one word "Bull." The new practice, according to the last reports we had, was proving amazingly successful even with psychotics.

We were reminded of the tough-line psychiatric approach just before Christmas when someone relayed to us sec-

From the Editor's Cubbyhole—

Music, Drama, And Interstate 85

By JERRY RODEN, JR., '46

Just south of Auburn lie two parallel ribbons of asphalt that serve as a constant source of irritation to me. Portions of these ribbons, which constitute a segment of Interstate 85, had already been there long enough to get another coat of asphalt last year, yet even now this section of I-85 doesn't go anywhere. You can get on it right above the Chewacla Park entrance and drive east almost to West Point, Ga.—and that's the end of it.

There are moments, of course, when this short stretch of straight four-lane proves convenient. But even then I can't help thinking of how much permanent good the money it has already cost would have done in the right places at Auburn University. Furthermore, I still resent the loss of untold acres of woodland and field devoured by the monsters that carved out the path for this little segment of super-highway.

However, the new year has finally brought the realization that I might as well quit protesting. Old I-85 is already there, the money's spent, and the land is gone, and there appears to be

no practical way of reclaiming either of them. Furthermore, renewed construction at each end of the existing strip promises someday to remove some of the futility I-85's existence.

But even when it is completed, Interstate 85 will be of little benefit to Auburn University as an educational institution—in contrast to Auburn University as a sports center—unless some changes in the order of things take place. However, with the proper developments here, this otherwise superfluous drag-strip could become a boon to Auburn as a cultural center. For the completion of Interstate 85 will put Montgomery and the heartland of Alabama only a short cruise away from the campus, and it will bring Atlanta and a host of smaller Georgia cities within the range of a leisurely drive.

Think for a moment of the potential audience that this development will provide for musical and dramatic productions and for outstanding lecturers on the Auburn campus. And consider the magnitude of the cultural influence that Auburn could exert by developing this potential.

Of course, Auburn could not begin to develop the potential if Interstate 85 were completed tomorrow. Despite the fact that we have a few excellent musicians on the University faculty, Auburn has in an important sense neglected the development of its music program, because the people of Alabama have generally neglected development of the musical talents of its young people. The University of Alabama also has, we are told by people here who should know, a number of excellent musicians on its faculty. In fact, it has a few more than Auburn has. Nevertheless, as far as I can determine, no public institution of higher learning in this state has a music program that has attained widespread recognition.

The principal problem faced by music departments at Alabama colleges and universities is poverty. Facilities and faculty salaries are inadequate, and the only scholarships worthy of note that exist for talented students are for those who play band instruments. Auburn can maintain the string sections of its small symphony orchestra only because of the assistance of townspeople, faculty members not associated with the Music Department, and some visitors from nearby Columbus.

The Department of Dramatic Arts (and those at other state institutions too, I assume) suffers from the same lack of strong financial support that hampers the Music Department. Nevertheless, the Auburn Players, like Auburn musicians, present a number of very creditable performances to audiences limited by the inadequacy of facilities.

The relative neglect of music and drama in Alabama seems to be principally the result of a form of ignorance, or an outmoded Puritanism, that considers them frills upon the cloak of learning. It seems about time for those of us who know better to begin an all-out battle against such absurd assumptions and the apathy hindering real progress in these arts essential to any truly civilized society. And if we begin battle soon enough, our efforts could enable Auburn to take advantage of the opportunity that a completed Interstate 85 will provide.

ond-hand a complaint about "known Communists" that have written for *The Alumnews*. The mildest answer that we can think of in response is "Poppycock." If anyone out there in our audience has evidence of Communist activity on the Auburn campus, he possesses information that neither this editor nor the University administration has been able to ferret out, and he ought to go directly to the FBI instead of piddling around with complaints to someone else. We have no patience with Communists or pro-Communists and just about the same amount with those who see a Red ogre behind every twig and make the job of promoting education for American citizenship more difficult by wailing about their hallucinations.

From The Heights—At its recent centennial dinner the Alabama Association of School Administrators honored Dr. Charles B. Glenn '91, distinguished Birmingham educator. Looking down from the Olympian heights of a 94-year-long life of achievement, Dr. Glenn humorously addressed his dignified audience as "Boys and Girls."

Our Underground—Auburn has no known Communists among students and faculty, but our alert journalism workshop assistant Pat Foote '65 has discovered the existence of a fully-developed underground organization on campus. For a full report of the findings of this intrepid young coed see page 5.

A Record of Achievement—Our "Alumnalities" section is rather full this month. We never prepare this compilation of information about alumni activities without feeling rather humble before the task has been completed. Nothing else serves so well to remind us of the almost incomprehensible significance of a great educational institution like Auburn. Our class notes constitute the record of alumni achievement virtually throughout the range of human endeavors. Rather than note particular items, as we do here from time to time, we would like this time to recommend the scanning of the entire section to those who have a few spare moments.

Still Pertinent—When Auburn dedicated the new university library here a little more than a year ago, Dr. Frank Rose, president of the University of

THE AUBURN ALUMNEWS is published by Auburn Alumni Association, Auburn University, Auburn, Ala., Jerry Roden, Jr., '46 is editor. The staff includes Bill Beckwith, '51, sports

editor; Lester King, '51, AU photographer. The Auburn Alumnews was entered as second class matter February 4, 1946, at the Post Office, Auburn, Alabama, under the Act of August 24, 1912.

Missile Command Praises Professor And Auburn

The U.S. Army Missile Command has commended Dr. Hal W. Maynor, Jr., AU professor of Mechanical Engineering, for his research and publications on fracture toughness of high strength steels. Dr. Maynor's articles appeared in the *Welding Journal Research Supplement* and in the *International Journal of Mechanical Sciences*.

"The recognition achieved through such publications is confirmation of the significance of Auburn University accomplishments in the discipline of materials sciences and the specific problem area of fracture mechanics," wrote John L. McDaniel, technical director for the Research and Development Division, adding, "I take pride in the fact that the Army Missile Command is sponsoring this effort in pursuit of research and exploratory development objectives of mutual interest."

During the five-year contract period in which Dr. Maynor has conducted research in this area, he has published seven papers in addition to preparing numerous technical reports submitted to fulfill contract obligations. Among these are recent reports accepted for publication by the American Society of Mechanical Engineers and the American Welding Society.

* * *

ARTIST REPRESENTED — Maltby Sykes, professor of art at Auburn University, is represented in American Drawing Annual XXI by an india ink drawing entitled "Glamorous Insect." The exhibition is national in scope, and will be on view at the Norfolk (Va.) Museum of Arts and Sciences until Jan. 31.

* * *

AUBURN SELECTED — Auburn is among 39 institutions of higher learning selected for summer research grants by E. I. du Pont de Nemours & Co. for the 1965 period. Awards to Auburn include grants to the departments of Chemical Engineering and Mechanical Engineering for \$2,200 each for a total of \$4,409. The summer research grant program is provided to give younger staff members opportunities to advance their own scholarly development by engaging in research or other appropriate work during the summer.

FINANCIAL AID—During the past five years 1,064 Auburn students have received \$946,748 in loans under the National Defense Education Act (NDEA). An additional \$225,000 will provide 450 more loans during 1965. Passed by Congress in 1958, NDEA enables colleges and universities to provide low interest loans to qualified students, principally those in education, science, mathematics, engineering, and foreign languages.

Loans vary with minimum need and carry no interest until a year after graduation. Students work out a repayment plan with the Auburn bursar before graduation. Normally, the loan is payable over ten years at a three per cent interest rate. Qualifications for NDEA loans include acceptance for admission, three references, and a "B" average in high school.

* * *

VISITOR WITH TWO JOBS—Dr. A. M. Guhl, national president of Phi Kappa Phi and professor of zoology at Kansas State University, recently appeared on the Auburn campus. As the second lecturer in Auburn's Visiting Scientist Program, Dr. Guhl gave a public lecture on "The Socio-Biology of Chickens and Man" and held seminars with students and professors in animal science, zoology-entomology, and psychology. On December 8, he addressed the Auburn chapter of Phi Kappa Phi (the highest academic honorary at Auburn) at their 50th anniversary banquet.

* * *

FACULTY ELECTED TO NATIONAL OFFICES—Dean Truman M. Pierce, School of Education, is chairman of the Teacher Education Division of the Association of State Universities and Land-Grant Colleges for 1965. Dean James E. Greene, School of Veterinary Medicine, is a member of the Atlanta Regional Forum Committee of the National Commission on Community Health Service. Dr. Charles P. Anson, head of Economics and Business Administration Department, is vice-presi-

PERFORMING IN AUBURN UNION—The Glyde String Quartet will present selections from Beethoven, Martinu, and Debussy in a concert scheduled for 8:15 p.m. in Auburn Union on Jan. 21. The quartet consists of (l. to r.) Auburn Professor Edgar Glyde, viola; Rosemary Glyde, violin; Mrs. Dorothy Glyde, violoncello; and Mrs. Wendy Glyde Klopfenstein, violin. (See page 4 for full winter schedule.)

dent of the Southern Business Administration Conference. Dr. Robert L. Saunders, Assistant Dean, School of Education, is president of the Southern Regional Council on Education Administration. Dr. J. Grady Cox, head of the Industrial Engineering Department, recently served as a panel member for the National Science Foundation with a group evaluating proposals for graduate traineeships.

* * *

AUBURN UNIVERSITY PROFILES—Twenty-one Alabama and West Georgia radio stations transmit daily a five-minute radio program "Auburn University Profiles," presenting the personalities, events, and ideas of Auburn students, faculty, and campus visitors. David Blakeman, assistant editor in charge of radio and television services at Auburn, produces the program, which is made possible by an Ampex Corporation Education Foundation grant.

* * *

SENIORS COMMISSIONED — Sixteen out of 45 men commissioned in the ROTC ceremonies preceding fall graduation, Dec. 16, were designated "distinguished military graduates" by their commanding officers because of high academic achievements and superior qualities of leadership. Cadets receiving commissions in each of the ROTC branches were: Army, 25; Air Force, 14; Navy, 4; and Marines, 2.

* * *

VETERINARY MEDICAL CONFERENCE SPEAKERS—At the 57th Annual Veterinary Medical Conference held at Auburn the week of Nov. 16, Dr. R. G. Schirmer of Michigan State University discussed the allergies and skin diseases of dogs similar to those of human beings. Dr. R. K. Shideler, Sardis, Miss., outlined the working conditions needed for proper feedlot practice. In addition, Col. Gordon MacEachern '41, commander of Veterinary services for the Air Force Systems Command, informed junior and senior veterinary students of opportunities in the Air Force.

JAPANESE VISITOR—Professor Tetsuro Hattoria of Kyushu University, Fukuoka City, Japan, recently visited Auburn as a guest of the History Department. Professor Hattoria, who teaches Southern United States History, was touring Southern institutions, libraries, and museums. His visit was arranged by the Council of Leaders and Specialists of the Experiment in International Living.

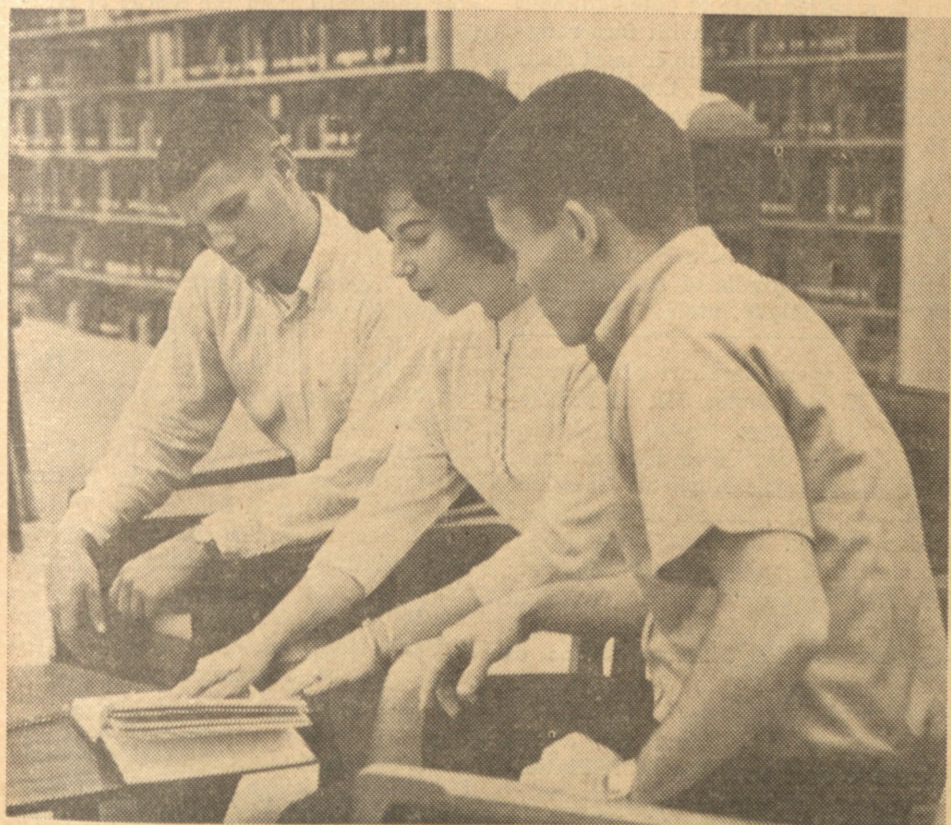

* * *

ALUMNUS LECTURES—Dr. Franklin M. Prospt '57, assistant professor of physics at the University of Illinois and associate editor of the *Journal of Vacuum Science and Technology* presented a symposium of three lectures Nov. 19-21 dealing with production and measurement of high vacuums. The lecture series provided the latest technical aspects of high vacuum systems for the faculty and students of the Physics Department. The Physics Department plans to build a high vacuum system to help with a NASA project concerned with developing better electrical condensers for a space program under the direction of Dr. Paul Budenstein. The symposium was sponsored by the Graduate School, the Physics Department, and the Electrical Engineering Department.

Behind The Headlines

(Continued from page 2, Column 3)

Alabama, made an address at the banquet following the dedication. We liked what he had to say well enough to ask for a copy of the text. Since that time the pressure of news and other commitments have kept our columns full, but we have never forgotten about Dr. Rose's address, which is as pertinent now as when he gave it. The great challenge before American education is still that of developing those rare commodities of "wisdom and human understanding." Hence that long-held text appears on page 7.

VFW CONFERERATES—Efforts of the Alabama Veterans of Foreign Wars to fight communism with knowledge by placing books in the Auburn Library have drawn support from a number of Auburn students. Among those who have assisted the VFW in fund-raising are members of the Auburn Union Committee. Above the Union Committee leaders in this effort check one of the books in the Veterans Memorial Collection. Left to right are Tom Roberson of Gallatin, Tenn., Patricia Holland from Oxford, and Pat Stacker of Clarksville, Tenn.

FIRST IN THEIR FIELD—Jerry Nelson Ledbetter (left) and Everett Marshall Garrett, Jr., who graduated here on Dec. 16, are the first Auburn alumni to hold the new Bachelor of Industrial Engineering degree. Jerry Nelson Ledbetter is from Lacey's Springs, and Everett M. Garrett is a Montgomery native.

A Young Police Reporter's Memories—

Death, Justice Play No Favorites

By George Gardner

Reprinted from *The Auburn Plainsman*

Working as a police reporter for a daily newspaper in nearby Columbus, Ga., is an educating experience.

Primarily, you learn a lot about human nature. And you also learn a lot about human nature that is inhuman.

Perhaps the first lesson that you learn is that death and justice play no favorites. Young and old, rich and poor, black and white, men and women—sooner or later, they all face the mallet of Justice and the sickle of Death.

Some of your experiences reaffirm your faith in mankind, while others cause you to twist and turn at night, when sleep refuses to come.

Probing the burned wreckage of an Air Force C-127 for the charred bodies of young paratroopers teaches you how ugly death can be.

Taking pictures of the bodies of a young honeymooning couple, killed in a head-on automobile collision, teaches you that death can be tragic.

And dragging the muddy Chattahoochee River for the bloated body of a fisherman who has been missing for a week reminds you that death can be cold and lonely and final.

A young child is struck down by a speeding auto while "trick-or-treating" on Halloween, and you learn that death can be needless. Watching the child's younger sister testify in court the next day reminds you that death can be tearful.

And justice, too, can be all of these things.

Seeing an Army sergeant meekly plead guilty to raping his own 8-year-old daughter confirms that justice is necessary.

Watching a young man receive a preliminary hearing for murder at 9 a.m. in a packed courtroom after the victim was stabbed to death in a nightclub at 2 a.m. ascertains that justice is swift.

... A man and his wife are confined to jail for fighting each other in the street, while hungry, innocent, dirty kids are left alone. And you are reminded that justice, too, can be tragic.

Young soldiers are found guilty of reckless driving, then the young cop that testified against them leaves the courtroom, gets in his own car, and

speeds off down a busy street with tires squalling. And justice is hypocritical.

A well-dressed businessman charged with a misdemeanor faces the judge, smiles, and thinks that he will get off lightly because he's "not like the others in the jail." But the smile slips from his lips as his sentence is pronounced, and lady justice again plays no favorites.

An 88-year-old Negro woman pleads guilty to cutting two middle-aged women with a paring knife, and although she limps as she walks from the courtroom to jail, justice is almost comical.

Two men charged with homosexuality are committed to jail, and you know that justice is not the answer to their problems—nor to society's problems.

All of these things you learn as a police reporter, and many more lessons of human behavior that could not be printed here. Or anywhere, for that matter.

Because some elements of our very complex human nature are not fit to print.

Printing the story for countless thousands of eager readers isn't the answer ... nor is justice ... nor is death.

Some elements of human nature are downright inhuman.

Only Yesterday—

Mike Donahue Signs New Contract

Compiled by JOAN SAMUELSON '65

From the files of the Auburn Alumnus

50 YEARS AGO ... Auburn extension teaching now reaches all corners of Alabama and instructs all ages from the corn club boy and the canning club girl to the mature farmer and his wife.

The Extension Service consists of four main branches: (1) Farm Demonstration, (2) Woman's Work, including Home Economics and Girls' Canning Clubs, (3) Junior Extension, especially Boys' Corn Clubs, Pig Clubs, etc., and (4) Extension Work by Specialists. These movable schools now being introduced carry instruction to girls, boys, and women on the farm as well as to the farmer. They attempt to stir up thought on all phases of rural life from sanitation to cooperative buying and selling.

"Irish" Mike Donahue, Auburn's football coach, has recently signed a contract to coach here for the next five years. So great has been his success since coming to Auburn that he is now recognized as one of the best coaches in the business.

At a recent meeting of the executive board, Professor Bragg, president of the Alumni Association, was instructed to complete all plans for beginning construction on a new gymnasium. It is hoped that the cornerstone may be laid during Commencement.

Alabama Polytechnic Institute, the oldest school of technology in the south, has 69 professors and instructors, 830 students and 20 well equipped laboratories.

25 YEARS AGO ... The new \$400,000 dormitory group called the "quad-rangle" was completed during the Christmas holidays. Four hundred API co-eds have already moved in during these past three days.

The old President's mansion has been remodeled to provide office space and twenty dating parlors where girls may entertain their dates upon permission of the hostess, Mrs. L. Y. Dean, until 11:00 p.m.

Dating regulations for the girls have been established by the college. Freshmen are allowed two dates a week and sophomores three. Juniors and seniors are unrestricted. Permissions of 11:00 p.m. will be enforced. No girl should be seen socially with a boy after 7:30 p.m. unless she is properly signed out.

A tea room sponsored by Cardinal Key and Owls, two honoraries for women, will soon be open in the basement of Dormitory 1. It will be open every night from 8:30-10:30. Girls may bring their dates, provided they enter and leave by the side door.

Auburn's enrollment reached a new high mark—3,549—for the first semester.

Burton's Book Store is advertising slumber-stopper alarm clocks for \$1.00 and goose-neck study lamps for \$1.25.

Leading the Junior Prom this year is Miss Crommelin Underwood of Montgomery and her escort Mr. John Deming. Miss Underwood was chosen by the social committee.

New cut regulations are being established by the college on an experimental basis. Under these regulations a student is allowed a quota of cuts for each course amounting to twice the number of credit hours in the course. The cuts may be used in whatever manner the student chooses.

Miss Florence Clapp answered a phone call which almost won Dormitory III \$1,000 from "The Pot of Gold" radio program. Almost? Right. It was all a hoax by an enterprising college reporter.

Alumni Invited To Winter Series—

AU Musicians Offer Varied Concerts

By PAT FOOTE '65

Auburn University musicians will provide a varied slate of entertainment for the winter quarter with fare ranging from string quartet to concert choir presentations. Each of the following admission-free performances begins at 8:15 p.m. and is open to the public with alumni cordially invited.

The Glyde-family string quartet will give the first performance of the season on Jan. 21 in Union Building. The family group consists of Auburn Professor Edgar Glyde, viola; Mrs. Doro-

thy Glyde, violoncello; and their two daughters, Rosemary Glyde and Wendy Glyde Klopfenstein, violin. They will play selections from the works of Beethoven, Martinu, and Debussy.

On Feb. 1 in Union Ballroom, the Auburn University Orchestra and Concert Choir will present a Concerto Grosso Concert. Combining the abilities of instrumental and vocal performers, the program will include compositions by Bach, Vivaldi, and R. Vaughn Williams.

The University Orchestra will give a second concert on Feb. 25 in Union Ballroom.

Two Senior Recitals in Langdon Hall are on the agenda for March. Judith Wright will perform in the first recital. The pianist will include in her March 1 presentation compositions by Mozart, Debussy, Liszt, and Schumann.

The second senior, Wendy Klopfenstein, violinist, will include in her recital program selections from Bach, Beethoven, R. Vaughn Williams, and Handel. Her performance of March 3 will close the entertainment for winter quarter.

A recent study shows that nearly 600,000 technicians were employed in American industry in 1959. It is anticipated that more than 800,000 additional technicians will be needed by 1975.

A minimum of 75 man hours have to be invested in the production of one reasonably sound 45-minute educational television tape.

Elizabeth Rogers Barnhart of Cullman; William T. Boardman, III, of Mobile; Farnsworth Dudley Bryant of Louisville, Ky.; Thomas Edward Bumpass of Montgomery; Louis Augustus Cassel of San Diego, Calif.; Donald A. Chambless of Montgomery.

Shui-chih Cheng of Taipei, Taiwan; Michael Nels Carstensen of Overland Park, Kan.; Daniel Lewis Davis of Dallas, Tex.; Donald Marcum Elkins of Estell Springs, Tenn.; James Vandle Gramlich of Charleston, Ark.; John Vernon Hodgins of Birmingham; James William Huff of Thompson Station, Tenn.

Leonard L. Ingram of Worcester, Mass.; Lowell Lavon McCormick of Strong, Ark.; Raymond Lee Shepherd of Arkadelphia, Ark.; Adele Eckford Smith of Starkville, Miss.; Ronald Douglas Woodke of Saginaw, Mich.; James L. Smith of Columbia, Miss.; and Earl L. Cook of Auburn.

An Exclusive Report On The Auburn Underground

By PAT FOOTE '65

Auburn's antique L-Building now houses a fully-developed underground organization that operates from the abandoned boiler room in its tunnel—with the complete sanction of University authorities. Working behind the front of the Greek letters Alpha Phi Omega, members of this subterranean organization promote a variety of subversive activities that involve the donation of time, money, and personal effort.

Some of the organization's works are well-known in Auburn, but other activities have never been publicized previously. Best known of the underground operations is the Student Book Exchange, brazenly opened for business in the tunnel headquarters. Here, at the beginning and end of each quarter, students conspire over used textbooks to defraud the University Bookstore and certain free enterprise establishments uptown of as much exchange profit as possible.

Currently the organization is involved in over-the-counter sales of "War Eagle" tags, presumably for the purpose of promoting the Auburn Spirit, but actually in order to secure funds for expanding its operations.

With shrewd calculation, these A Phi O's conduct some above-ground activities. Their major out-of-the-tunnel project of the year is an "Ugliest Man on Campus Contest," apparently harmless enough and jolly good fun, but manipulated through the process of charging a penny a vote to make money for the organization.

The scope of this Greek-letter group's operations is such that even an inquiring reporter finds it difficult to put a finger on all of them. One of its previously unreported moves was the donation of approximately \$1,500 worth of used textbooks to the cause of volunteer Adult Education in Auburn. Further investigation reveals that the organization earlier contributed a sum of cash to the same cause.

Cash contributions for the purpose of winning campus influence is a common practice of the organization. Recent exploits of this nature include donation of \$400 to the University for a new cage for War Eagle IV and another contribution of \$450 for outdoor lighting for Auburn Union Building.

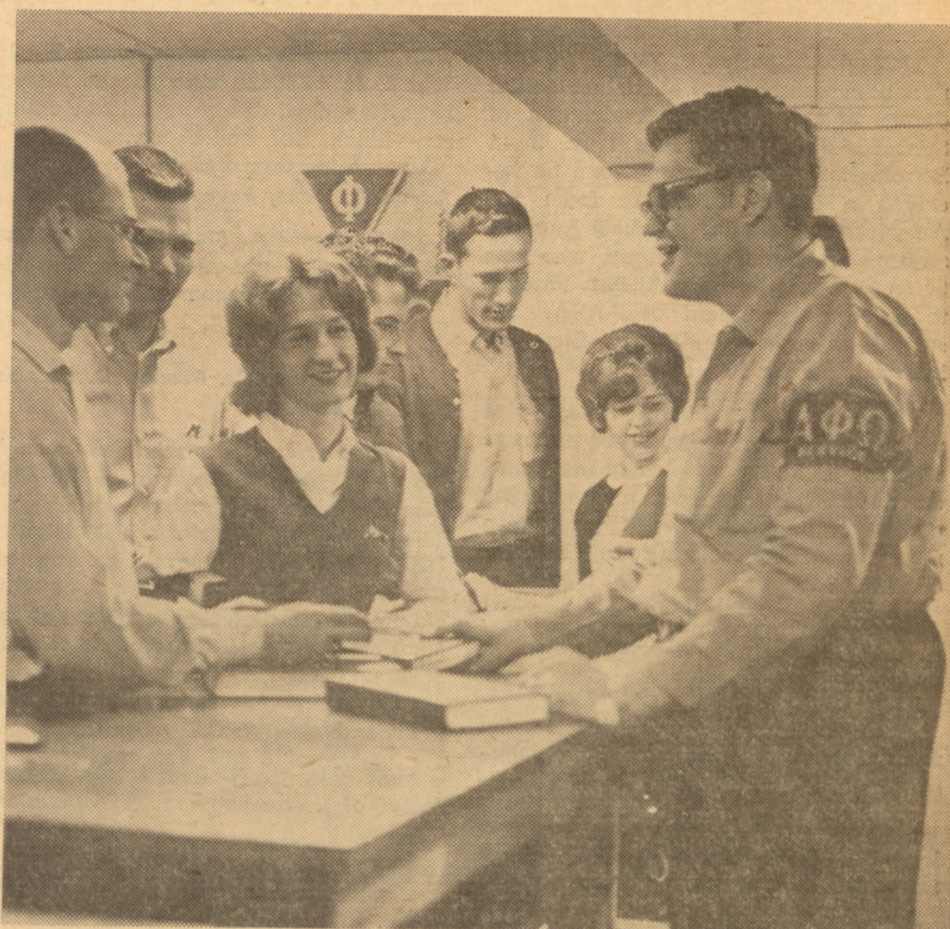

In order to establish contact with

virtually all of the student body, the organization made 9,500 shakers and distributed them at Homecoming and the Auburn-Alabama games. It also handled the distribution of 3,000 Auburn University Directories this fall.

Although this is the first detailed report on the Auburn underground attempted by *The Alumnews*, the Alpha Phi Omegas have been working steadily on campus for a number of years. They have infiltrated almost every phase of campus life. They are responsible for the Infirmary inter-com system, the new marble marker on College Street in front of Samford Hall, for placing pencil sharpeners and park benches around the campus, for sodding Graves Amphitheatre, and for landscaping Main Gate. They have placed two television sets, two trophy cases, and a stereo set in Auburn Union.

Expert in the art of establishing contacts, members of the organization have gotten themselves into positions that enable them to begin influencing prospective students before they enroll on campus. They have accomplished this feat by serving as guides for visiting high school students, and they have without a doubt already subverted some of next year's entering freshmen to their cause—to their strange belief that each man is his brother's keeper and that one ought to do good for others with no particular expectation of personal reward.

Membership in this "good man's underground" is open to those with satisfactory scholastic standing, with past Boy Scout experience, and with a desire to contribute to the cause of service. All the organization's work is done on a voluntary basis through the committee system. Members sign up for each job and see to it that the work is done. The current leader of the organization is Roger Winston, who is aided by three vice presidents and all the members, working constantly together and with other campus organizations.

A CONSPIRATORIAL GATHERING—Roger Winston, president of the Auburn underground organization, conspires with students over their used textbooks.

Do We Live Too Much In Reason?

By BILL RENNEKER

President of the Auburn Student Body

"We live too much in reason and not enough in faith." These are the words of the Honorable Willard Wirtz, Secretary of Labor, regarding the present status of the people and institutions of America. These words, simple as they are, may be more than significant as we face the new year. In them we see an evaluation and through them we can make strides toward the future.

I am sure that at one time or another we have all had doubts about certain aspects of our religion. On these occasions we have tried to reason through this doubtfulness to find something concrete on which to rely. Perhaps on some of these occasions we have found just this; but more likely than not we have failed in our attempts. We realize, however, we must go on. On these occasions we should recognize the inadequacy of reason and the overpowering aspect of faith.

The designers, engineers, and test pilots of our modern aircraft have reasoned through every aspect of physics which affects the performance of our aerospace projects. They have built aircraft which, by every law known, should perform properly; however, regardless of how strongly they believe in their product, I am sure that everyone concerned with the success of every project feels some anxiety about the results. Perhaps they have anxiety because they have never seen the craft or device perform, or perhaps they realize that they possess more knowledge than understanding.

Our State Department receives over 1500 telegrams a day. They haven't the time to devote to a carefully planned study of every telegram before that telegram must be answered. Even if they did have the time and the facilities, the very fact that they deal with human beings would require the use

of faith. In these times reasoning hasn't been enough. It won't be enough tomorrow and it won't be enough in the year 1965.

We possess more knowledge than understanding. Our daily lives depend upon our reasoning ability; our greatness and continued success require our faith. Our nation was founded on faith, it has continued through times of adversity because of faith, and it is faith which will grant us future growth and prosperity. We must not let the nature of our environment cause us to live too much in reason and not enough in faith.

Renneker

Five Alumni Publish

Results of cotton irrigation research by five Auburn University graduates in agriculture are reported in the December, 1964, issue of *Agricultural Research*, published by the U.S. Department of Agriculture.

The researchers are soil scientists Basil D. Doss '50, Orus L. Bennett '49, and Doyle A. Ashley '54 at Thorsby, Ala.; and agricultural engineers John R. Carreker '30 and John F. Thornton '48 at Watkinsville, Ga.

The experiments were conducted in cooperation with the Agricultural Experiment Stations of Alabama and Georgia.

Among the important findings reported in the article are: (1) That Southeastern cotton growers can increase production efficiently with one to three light irrigations during fruiting period; (2) that growers cannot realize full benefit from irrigation unless they combine it with adequate fertilization, insect control, and other good management practices; (3) that early season irrigation would not be profitable; (4) that irrigation after fruiting period could be harmful; (5) that cotton uses about 2 inches of soil moisture each 8 to 10 days during fruiting period; and (6) that longer and somewhat finer fiber results from properly irrigated cotton.

MONEY FOR THE CAUSE—Alpha Phi Omegas sell War Eagle tags over the counter in their L-Building underground headquarters to help support the cause.

Auburn Alumnalities

1891—Dr. Charles B. Glenn of Birmingham was honored at the centennial dinner of the Alabama Association of School Administrators on Nov. 2 in Birmingham. At the same time he received a letter of tribute from the American Association of School Administrators (AASA). Dr. Glenn, who was 94 on Dec. 1, is the only Alabamian ever to serve as president of AASA. He served as superintendent of Birmingham schools for 21 years.

1901—Dr. Paul Shields Haley, vice president of the Auburn Board of Trustees and an active member of the Board since 1917, was featured in a recent issue of the Birmingham News Magazine as a man "Too Busy Being Young to Ever Grow Old."

1908—Newton M. Haralson is now located at DeKalb County Nursing Home in Ft. Payne.

1909—Bart D. Stephens has moved from Orlando to Wesley Manor in Jacksonville, Fla.

1914—Marion A. Baldwin, Sr., now lives at 1412 S. Riverside Drive, New Smyrna Beach, Fla.

1915—Col. F. Henry Kohloss has moved to 2600 Norfolk Rd., Orlando, Fla.

1916—Dr. Samuel Wingard, after a distinguished career in plant sciences, retired on Nov. 1 as head of the Department of Plant Pathology and Physiology at Virginia Polytechnic Institute.

1920—Joel Johnson of Geneva is chairman of the Alabama Society for Crippled Children and Adults' award committee.

Edwin B. Lancaster '20 is senior partner of Lancaster & Lancaster, Architects, the firm designing Auburn's proposed new high school complex.

New Address: William L. Smith, Monroeville.

1921—New Addresses: George K. Miller, Huntsville; Charles G. Ollinger, Ft. Walton Beach, Fla.

1922—Auburn President Ralph B. Draughon has been appointed as aide-de-camp on the personal military staff of Alabama Governor George C. Wallace with the grade of lieutenant colonel in the State Militia.

New Address: Dr. John K. Hodnette, Cottondale.

1923—B. B. Marsh of Montgomery, division vice president of Alabama Power Co., is general chairman of Tukabatchee Area Council, Boy Scouts of America, which covers 14 central Alabama counties.

1924—Dr. Alexander Nunn of Lochapoka is a member of U.S. Secretary of Agriculture Orville Freeman's Cotton Advisory Committee.

G. D. Douglas retired last year from Woodlawn High School after 14 years there as a teacher of mechanical drawing. Mr. Douglas came to Auburn without the benefit of a high school education. After his freshman year, he left to enter the Navy during World War I but returned to complete his work and receive a degree in Mechanical Engineering in 1924. Prior to teaching at Woodlawn, he taught at Phillips High in Birmingham. Upon his retirement, the Woodlawn Tatler in a feature article called him "one of the friendliest, most popular, and best liked of the W.H.S. faculty" and noted that he had "held his standards high for his work, his social life, and the work of 'his boys.'"

Hiram M. Lane, foreman of the horticulture farm on the Agricultural Experiment Station here, retired on Jan. 1 after 43 years of continuous service to Auburn. Born in McIntosh, Mr. Lane served on the Mexican Border and then

with the Rainbow Division during World War I. In 1922, he married the former Nora Reynolds. They have three children—Mack, Bill, and Henry.

New Addresses: Sparks Hixon, Troy; Aaron A. Cone, Sebastian.

1925—James A. (Jabo) Beaty retired as manager of the Agriculture Department of the Birmingham Area Chamber of Commerce on Oct. 1 and has moved to Louisville.

New Address: Dr. Placide D. Nicaise, Slidell, La.

1926—Dr. J. A. Naftel of Auburn is the newly-elected president of the Alabama Soil Fertility Society.

O. F. Wise, director of the Division of Rehabilitation and Crippled Children of the Alabama State Department of Education, has been elected president of the National Council of State Administrators of Vocational Rehabilitation.

New Address: Joseph Benjamin Stewart Marshville, N. C.

1927—Dr. H. A. Bess is senior professor of Entomology at the University of Hawaii.

New Address: Charles W. Haynie, Flower Hill, Manhasset, Long Island, N.Y.

1928—Dr. E. V. Smith, dean of the AU School of Agriculture and director of the Agricultural Experiment Station here, is a member of the National Environment Health Advisory Committee of the U. S. Department of Health, Education, and Welfare.

Dr. Harold S. Strickland, professor of science at Jacksonville State College, has been appointed acting chairman of Jacksonville's Science Division.

1929—J. Fred Shackelford is president of Wimberly & Thomas Hardware Co. in Birmingham, which is in its 77th year of operation.

1930—New Address: D. C. Summerford, Tallahassee, Fla.

1931—Miss Margaret Williams of Opelika is parliamentarian of Beta Sigma Chapter of Delta Kappa Gamma Society, an international honorary organization for women educators.

New Address—Mrs. W. P. (Tinnie Mae Hunt) McGinty, Lanett.

1932—Foy Helms, retired AU Agricultural Extension Service specialist, has been appointed city revenue officer for the City of Auburn.

Lt. Col. Thomas N. Pyke (USAR-retired) is spending the winter in Florida after retiring from U. S. Civil Service last September. Col. Pyke, who retired from the Army in July, 1960, maintains a regular residence in Arlington, Va. He has a son, Tom, Jr., who is doing graduate work in Engineering at the University of Pennsylvania.

New Address: Marcel E. Crettet, Sr., Ft. Worth, Texas.

1933—Miss Mary George Lamar is the current president of the Auburn University Faculty Club.

Howard L. Eubanks, veteran county agent for St. Clair County, was recently honored by farm and business leaders of the county for his outstanding work there.

New Address: Col. Donald T. Jones, Indian Harbour Beach, Fla.

1934—Dr. Frank S. Grubbs, deputy technical director of the U. S. Army Ballistic Research Laboratories, received the first Samuel S. Wilks Award at the Statler-Hilton Hotel in Washington, D. C., on Nov. 6. The award is presented to a man who "has performed outstanding service or made significant contributions to the Army's advancement of statistical methods in research, development, and testing." Dr. Grubbs, an internationally recognized expert in

mathematical statistics, weapons systems analyses, and operations research, earned B.S. and M.S. in Electrical Engineering at Auburn and an M.S. in Mathematics and the Ph.D. in Mathematical Statistics at the University of Michigan.

New Addresses: Col. & Mrs. Norman J. Cranford (Cathryn Bayne '34), Auburn; Lee P. Newsom, Remlap.

Miss Iola Roberts is principal of South St. Clair School in Pell City.

1935—New Address: Lt. Col. Edward A. Galt, Montgomery.

1936—W. Wilson Hill of Auburn has been elected president of the Alabama Association of Rehabilitation Workshops and Faculties. Hill is the manager of the Achievement Center in Opelika.

1937—George J. Burrus, III, of Indialantic, Fla., has been elected Florida vice-president of the Air Force Association. The Air Force Association was founded in 1946 to promote air and aerospace power to support the free countries of the world. Burrus was elected to his post at a regional meeting of the Association in Orlando.

New Addresses: Dr. William V. Chandler, Winter Haven, Fla.; Mrs. P. M. (Florence Bradley McCorkle) Haynes, Athens, Ga.

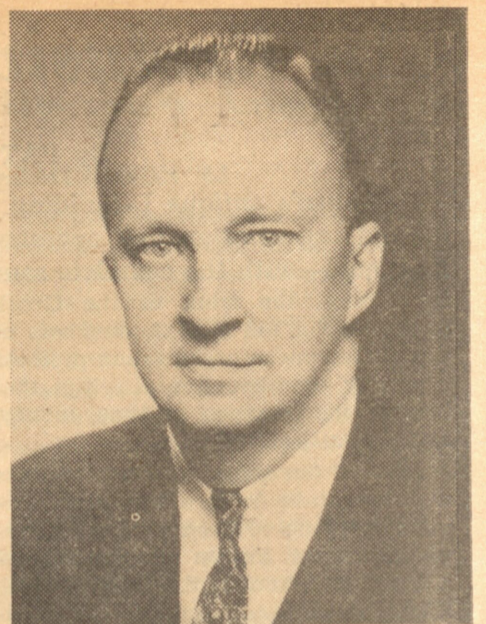

1938—Roland B. Scott, executive assistant to the director of Industrial Relations for Northrop Norair, a division of Northrop Corporation, has been appointed to California Governor Edmond G. Brown's Committee for Employment of the Handicapped. A retired Air Force lieutenant colonel, who suffered the loss of an eye and other injuries on a bombing mission during World War II, Scott has actively supported numerous programs to employ the handicapped. He and his wife, the former Elizabeth Lewis of Macon, Ga., have three children—Roland, 20; Linda, 19; and Dixie, 10.

William C. Pless received on Oct. 21 the Meritorious Civilian Service Award, the second highest award which the U. S. can bestow on a civilian. The citation with the award reads thus: "For meritorious performance of duty as Chief, Armor Branch, Automotive Division, Development and Proof Services, Aberdeen Proving Ground, Maryland, from Aug., 1962, to June, 1964. He has made significant contributions to the development of lightweight protective systems for Army aerial vehicles. By aggressive and imaginative application of his knowledge and experience in the testing of armor materials and systems, he made valuable additions to the design criteria and literature used by research and development agencies developing these critical systems. These same determined efforts and excellent leadership have contributed significantly to the successful completion of Advanced Research Projects Agency's project concerning improved protective facilities for the office of the President of the United States. His performance is in the best interest of the Career Service and serves as an inspiration to others."

Charles Rittenour, Jr., of Montgomery has been elected secretary-treasurer of the Alabama Association of Soil Conservation District Supervisors.

Billy Hitchcock is scout and troubleshooter for the Milwaukee Braves.

New Address: Col. Howard D. Sutterlin, Midway, Ky.

PROMOTED—Charles T. Hightower '36 has been appointed vice president and director of technical services in Dissolving Pulp for International Pulp Sales Limited. With head office in Montreal and executive offices in New York, International Pulp Sales Limited is a subsidiary of Canadian International Paper Co. Prior to his new appointment as vice president, Mr. Hightower was director of technical services for IPSL.

1939—Alabama State Senator Bill Nichols of Sylacauga is a member of the U. S. Secretary of Agriculture's National Cotton Advisory Committee.

Clarence L. Turnipseed has been appointed executive vice president of the Citizens, Farmers, and Merchants Bank at Brewton.

Mrs. Nancy Thompson Barrett has played seven roles a year with St. Petersburg Little Theatre since she left Auburn. She also serves as publicity director for the Theatre and has just completed service as chairman for the Exchange Club's 31st Annual Shoe Fund Ball, which cleared \$8,000 for shoes and clothing for the needy.

1940—Born: A son, Fred Lee Bass, III, to Mr. & Mrs. Fred Lee Bass, Jr., of Birmingham on Nov. 13.

1941—Dr. Thomas J. Whatley, head of the Department of Agricultural Economics and Rural Sociology at the University of Tennessee, has been designated a Distinguished Service Professor. Dr. Whatley has been at the University of Tennessee for 17 years. He has won esteem through his outstanding research, writing, and teaching and for the leadership that has built the University of Tennessee's respected program in agricultural economics and rural society.

M/Sgt. Bolden H. Eiland, Jr., is with the U. S. Army Instructor Group at Stetson University, DeLand, Fla.

Frank M. Renfro of Opelika Floral Co. has been appointed district representative for Florists' Telegraph Delivery.

Mrs. Sarah Blanton Folsom has been elected state school superintendent in Arizona.

Frank P. Samford, Jr., president of Liberty National Life Insurance Co., has been elected to the board of directors of the Life Insurance Association of America for a three-year term.

Miss Alma Holladay is treasurer of the newly-organized AU Home Economics Alumni Association.

New Addresses: Maj. James D. Danner, St. Petersburg, Fla.; Lt. Col. Drew P. Hale, Rome, N. Y.; James O. Reynolds, Ft. Payne; Lt. Col. Norman L. Hall, New York, N. Y.; E. Fred Schultz, Jr., Beltsville, Md.

1942—Louis Harbin of Mobile is immediate past president of the Southern States Beekeepers Association.

Bill Kennedy is now living in Montgomery and is editor-manager of the Alabama Farmer magazine.

(Continued on page 8)

The Present Challenge To American Education

By FRANK A. ROSE

President of the University of Alabama

In recent months we have heard a great deal about Russian education and some rather serious indictments of American education. Mark Van Doren has said, "It is impossible to discover a man who believes that the right things were done to his mind." Walter Lippman was more critical when he wrote: "During the past 40 or 50 years those who were responsible for education have progressively removed from the curriculum of studies the western culture which produced the modern democratic state: that the schools and colleges have, therefore, been sending out into the world men who no longer understand the creative principle of the society in which they must live; that deprived of their cultural tradition, the newly educated western man no longer possesses in the form and substance of his own

EDITOR'S NOTE: Dr. Rose gave this speech in Auburn more than a year ago, but the message seems just as pertinent now as then.

mind and spirit, the ideas, the premises, the rationale, the logic, the method, the values, or the deposited wisdom which are the genius of the development of western civilization; that the prevailing education is destined, if it continues, to destroy western civilization, and is in fact destroying it."

This is a rather serious indictment and, while we would not all agree with the complete statement, we would agree that there is enough truth in it that we are sobered by his thought.

Alfred Noyes, in his poem, *Watchers of the Sky*, describes Galileo showing his new telescope to the Senators of Florence and the old men, wagging their white beards, saying to one another,

"This glass will give us great advantages in time of war."

And Alfred Noyes exclaims:

"O God of Love,

Even amidst their wonder at thy world,

Dazed with new beauty, gifted with new powers,

These old men dreamed of blood."

There is nothing more imperative in these days than the rightful use of our resources. We Americans have realized the dreams of centuries past, and with all of our resources of unprecedented plenty stand in a position to furnish ourselves and the world with opportunities to overcome these fascist days.

But it is going to take more than our proving ourselves as the old Senators of Florence who, on seeing Galileo's telescope, dreamed of blood. Our generation has known altogether too much of this course of human history, and we must learn that we have greater capacities than those for destruction. The price of victory of modern warfare has become too great and, with our present instruments, what is this minute a paradise the next minute becomes a veritable hell.

We must realize that we are a part of a culture in which technical knowledge and skill have made tremendous development, but wherein wisdom and human understanding are still rare commodities. Even in relatively tranquil years, the tension and the inconsistencies latent in western civilization can hardly fail to provoke grave misgivings in the thoughtful mind. Each year advances the war against disease, introduces new labor saving devices, marks the attainment of higher speeds, and the measurement of more distant nebulae. These marvels of contemporary science are the chief glory of our era and it is impossible to overpraise

the labor, the devotion, and the inspiration which have made them possible. Machines are destined to become immeasurably more intricate and more powerful, and the marvel and complexities of this machine-dominated civilization cannot fail to increase annually.

Yet, even now, this development is imposing a responsibility upon us for which we are not prepared and are not competent to accept. There is a mounting disparity observable between the limitless capacity of the machines, and the limited faculties of their human masters. It has been easy to treble the speed of an automobile or jet plane, but the deliberations and reactions of the driver are limited by his mental and muscular inheritance and cannot be greatly accelerated. The most ominous of this growing disparity between the acceleration of mechanized processes and the lag of human adaptation involves modern warfare. With the dangers of nuclear warfare, time collapses, deliberation becomes impossible, and the role of arbiter becomes impossible. The diplomats, as custodians of peace, cannot hope to evolve solutions in such emergencies, and it becomes of utmost importance to anticipate crises and prepare a channel to settle disputes in advance.

Fully aware of the urgent character of our day, our educational institutions must re-evaluate educational philosophies and practices, scrutinize their participation in those practices, and seek to meet the responsibilities of these days. No school or university in our present society can claim exemption from searching inquiries.

Such an inquiry should reveal to all of us the nature and function of our public schools. These schools are supported by public funds. The use of the common treasury can be justified only on the assumption that the community as a whole is benefited by its operation. The end and aim of public education is a better citizenry. This must never be forgotten or overlooked. Young men and women who attend our schools must feel a special responsibility to the people, an obligation to be repaid in service to mankind. A democracy has the right to expect leadership from those whom it has educated. The ways in which an educated man or woman can be of use to the community are manifold. Good government should be the concern of every citizen. Active participation in public affairs by men of broad vision and high purpose is imperative. This need is equally apparent in other fields. Society abounds in agencies for human betterment. All of them need leadership and support, and they all furnish opportunities to the educated to repay the debt they owe to the state.

But it is not only through participation in government and in the social agencies of the day that good citizenship may be manifested. Every business and every profession has its responsibilities. Men who direct great enterprises, who deal with labor and capital, who care for the public's health, who teach our youth, who produce our nation's food, are all in strategic positions. They may act with narrow and selfish motives or with a sense of public responsibility. Those who achieve their positions with the aid of a public education should administer their position the more faithfully as a public trust.

It is my hope that no student will ever leave our schools without a sensitive consciousness of man's duty to man and a willing acceptance of social responsibility. Pericles in the *Funeral Oration* entreats the Athenians to a high devotion to the state. He says, "Fix your eyes on the greatness of your country as you have it before you from day to day, fall in love with her, and when you feel her great, remember that her greatness was won by men of courage,

It is imperative that we furnish our young people with a knowledge of the highest values of a democratic society. An appreciation of our institutions, the church, the family, and our schools is imperative. So many of our young people have heard adults criticize our basic institutions that they have lost respect for them. These are necessary to a growing society and we must help our youth have the proper respect for them.

Those responsible for education in America in these days cannot help but

THE UNIVERSITY VISITS AUBURN—A number of University of Alabama administrators and faculty visited Auburn recently to further strengthen the spirit of cooperation between the two universities. In a top level conversation above (l. to r.) are Clyde Reeves, vice president of Huntsville affairs for the University of Alabama; Dr. Ralph B. Draughon, president of Auburn; Jeff Bennett, vice president at the University of Alabama, and Dr. Robert Anderson, executive vice-president of Auburn University. (Photograph by Gil Rodgers.)

with knowledge to her duty, with a sense of honor in action, who, if they failed in any ordeal, disdained to deprive the city of their services but sacrificed their lives as the best offerings in her behalf."

As good teachers we not only want our students to become useful citizens in the community, but we want them to become productive members in the world of knowledge. Much of education is repetitious, for each generation must learn what its predecessors learned. But that is not all. New truths come across the minds of men, they are captured, analyzed, and reduced to system; previous unknowns are discovered which push back large areas of intellectual darkness, and knowledge increases. For this steady increase in knowledge we must look, as we have always looked, to our universities, colleges, elementary and secondary schools.

The fundamental challenge before us is to make our schools centers of learning. It is at this point that we need to make some searching inquiries about our educational programs. We need to reduce some of our activities and inaugurate more courses in mathematics, physical and biological sciences, grammar and English, and the history of Western Civilization. We need to exercise more academic discipline on our students and demand more of their time in study. As teachers we need to be better prepared in our preparation for teaching and for daily instruction. Education for the genteel tradition is inadequate, we must give to the state and nation the best prepared leadership we have.

be impressed with the circumstances and events of more recent years. Our ability to bring about these material advances and our inability to shape our institutions and mould the thinking of our people have proved to be most frustrating. Our educational institutions are not receiving the support that is necessary for such an age as this. Our people are not giving education the priority it should have. Last year, the American people spent, per capita, \$187 on new automobiles, \$184 on entertainment and less than \$17 on education. This is an indictment of our modern values, and until we share more of our resources with those values, moral and intellectual, we will continue to lose our leadership in the world.

America has all of those resources, physical and spiritual, to assume a leadership in the world that has never before been afforded any nation. Provincialism, selfish interests, and the lack of knowledge and ideas are causing us to dissipate our energies and resources on those activities that add little constructively to the modern processes.

We have the fundamental institutions necessary for a strong and vigorous leadership, but these institutions are suffering from the need of greater development. Greater emphasis on scholarship, a stronger commitment to good teaching, more opportunities for pure research, and a more active participation in community affairs will bring a leaven to the loaf that is needed at this time.

(Continued on page 8, Column 4)

A PORTRAIT OF MISS MARY—President Ralph B. Draughon accepts a portrait of the late Miss Mary E. Martin from her sister, Mrs. James Jacobs of Easley, S. C., during dedication ceremonies of the administrative office building named in Miss Martin's honor. The building was previously Carnegie Library in which Miss Martin served as Auburn librarian for 37 years before her retirement in 1949. Following completion of the new library here, the building was converted to office space. Mrs. Jacobs also presented a \$1,000 book fund in her sister's memory.

ALUMNALITIES—Continued

A. M. Pettis is associate agricultural engineer with the University of Florida Extension Service.

Dr. E. T. York, provost of Agriculture at the University of Florida, recently addressed the Alabama Association of Soil Conservation Supervisors at their meeting in Montgomery.

Frank Crimmins has been promoted to manager of military, export, and import sales for the Falstaff Brewing Corporation. He and his wife, Martha Hicks '42, are living in Ballwin, Mo.

Joseph R. McCleskey, Jr., is with National Distillers & Chemical Corp. in New York City.

Charles M. Kelley is with the College of Architecture at the University of Washington in Seattle.

Dr. Cavett O. Prickett, formerly professor of Animal Science at Auburn, assumed duties as co-director of the Germfree Life Research Center in Tampa, Fla., on Jan. 1. The center is primarily concerned with problems related to cancer research, virology, basic studies of chemical carcinogenesis, and metabolic diseases in germfree animals.

New Addresses: Miss Marguerite O. Davis, State College, Miss.; Bernard M. Machen, Atlanta, Ga.; Lt. Col. George A. Austin, Jr., Student Detachment, USAWC, Carlisle Barracks, Pa.; Russell T. Kulp, Madsville, W. Va.

1943—R. L. Tindol, Jr., has been elected vice president for the Eastern Region of Orkin, the world's largest pest control company. Tindol's region includes Delaware, Georgia, Kentucky, Maryland, North Carolina, Pennsylvania, South Carolina, Virginia, and West Virginia. A native of Dublin, Ga., Tindol has been with Orkin for seventeen years and most recently served as Georgia District Manager. An Auburn Civil Engineering graduate, he has done post-graduate work at Vanderbilt and holds a certificate in Sanitary Engineering.

Comdr. Jack F. Heard is in the Office of the Chief of Naval Operations in the Navy Department in Washington, D. C.

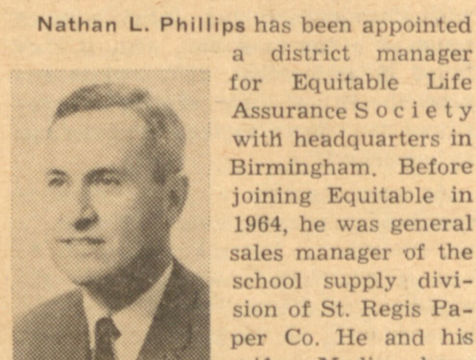

William D. Nettles, a veterinary staff officer in a unit that supports the Air University mission of conducting professional military education for Air

Force personnel, has been promoted to colonel in the U. S. Air Force at Gunter AFB, Montgomery.

Robert M. Guillot has been elected vice president of the Association of Alabama Life Insurance Companies.

William S. King of Florence has been elected to the board of directors and the executive committee of Georgia Life and Health Insurance Co.

Born: A daughter, Laura Gail, to Mr. & Mrs. Emerson Medlock Evans of Auburn on Nov. 18.

Nathan Phillips has been appointed a district manager for Equitable Life Assurance Society with headquarters in Birmingham. Before joining Equitable in 1964, he was general sales manager of the school supply division of St. Regis Paper Co. He and his wife, Madie, have two daughters—Beth, an Auburn sophomore, and Susan, a junior at Berry High.

New Addresses: Jim H. Sheppard, Jr., Winter Park, Fla.; Mrs. Minnie Tippins Fries, Somerset, Ky.; James W. Rayfield, Decatur; Cullen F. Harris, Pittsburgh, Pa.; William J. Califf, Jr., Jackson, Miss.; Hubert H. Creel, Coastanza, Dominican Republic; Lt. Col. Charles D. Orrison, Santa Monica, Calif.; Gorge W. Wachter, Pittsburgh, Pa.; Eliah P. Pertman, Tazana, Calif.

1944—Dr. LeGrand D. Rodgers of Greenwood, S. C., has been commissioned to serve as the veterinary member on the South Carolina State Board of Health. S. C. Governor Donald S. Russell made the appointment. Dr. Rodgers has practiced veterinary medicine in Greenwood since 1944. He is an active member of the South Carolina Association of Veterinarians, having served as president in 1951 and as a member of its executive committee for three terms. A charter member of the Piedmont V.M.A., he has served as its secretary and is the current president of the organization.

Auburn Club News

John D. Bridgers '47, head football coach at Baylor University, was the principal speaker at Jefferson County Auburn Club's Annual Banquet Honoring Tiger Seniors on Dec. 2 in Birmingham. Among the things that he told the seniors and others present were the following:

"Have faith—"Have faith in God, have faith in your fellow man and have faith in yourself regardless of what happens.

"Work hard. Keep working. I never got a letter from Auburn. I was a skinny, 170-pound guard, but I got so much more from Auburn than Auburn ever got from me.

"Never give up. I don't care what the odds are, or how the cards are stacked against you. Never give up.

"They didn't red-shirt players when I went to Auburn unless they were very poor. They red-shirted me my sophomore year.

"When I was a junior I got to play a minute or two now and then, and that was all.

"When the trips came up, I never made them except some little ones close around.

"I went to practice early, and I would get at the blocking sled, and I would get off by myself and practice, trying to get off quicker, over and over again.

"I didn't accomplish anything you could see. I still didn't get to play.

"There are some of you here tonight who are like I was. You practiced and you worked, but some little something came up and you didn't make the trips. You stayed home. You didn't get to play.

"But Auburn gave you something. Auburn gave me something. You are an Auburn alumnus now. You are part of a group of the most dedicated people in all the world, the finest people."

PITTSBURGH AUBURN CLUB—New officers of the Pittsburgh Auburn Club are Harvey I. Watson '48, president; John E. Payne, Jr., '59, vice president; and Mrs. Alice Birdsong Mayo '53, secretary-treasurer.

OPELIKA AUBURN CLUB—Officers elected by the Opelika Auburn Club are Evans Dorsey '54, president; John M. Brown '29, vice president; and Clement C. Torbert, Sr., '27, secretary-treasurer.

ATLANTA ELECTS—The Atlanta Auburn Club has elected the following new officers: Curtis B. Modling '47, president; Ben B. Mabson '32, first vice

New Addresses: Lt. Col. C. R. Teagle, Engineer Div., Hq. USAREUR, APO 09403, New York, N. Y.; Col. Howard E. Cody, Selma.

1945—William H. Pierce of Bon Air, Va., is regional director for Scholastic Publication Co.

New Address: Mrs. Betty Sue Lindsey Pollitt, Glenview, Ill.

1946—John M. Harbert, III, of Harbert Construction Co. in Birmingham was one of 45 U. S. and Canadian businessmen chosen for a recent visit to West Germany as guests of the West German government. The 45 men were flown to West Germany to see its industrial and commercial development. Harbert, an expert on natural gas, was one of two Southerners selected for the visit.

Born: A son, Olin Beall, III, to Mr. & Mrs. Olin B. Barnes, Jr., of Birmingham on Nov. 22 . . . A daughter, Nancy Burns, to The Rev. & Mrs. Norman Burns McLeod of Georgiana on Dec. 8 . . . A daughter, Toni Leigh, to Mr. & Mrs. Letcher F. Johnson (Christine Bennett '49) of Jacksonville, Fla., on Nov. 7.

president; Coburn H. Thomas '38, second vice president; and Charles S. Henagan, Jr., secretary-treasurer.

NORTH TEXAS AUBURN CLUB—Members of North Texas Auburn Club met in the Ramada Inn in Grand Prairie on Dec. 4 to install officers, view Auburn football films, and dance to the music of The Intruders.

JEFFCO ELECTS—New officers of the Jefferson County Auburn Club with headquarters in Birmingham are Marvin J. Mariani '43, president; Danny Stewart '53, vice president; Col. M. D. Johnson '26, secretary; and Frank U. Davies, Jr., '50, treasurer.

The Jeffco Executive Committee members are Tommy Lorino '59, Stewart Gaines '48, A. L. (Junior) Thomasino '60, Perry Pepper, Jr., '32, Marvin Foster, Jr., C. E. (Red) Michaels, Jr., '47, Kessler Fabian '59, Ruel Russell, Jr., '48, Jimmy M. Brown, Jr., '46, W. E. (Nimrod) Long '46, Henry Mellen, Jr., '24, and Howard T. Weir, Jr., '43.

The Present Challenge

(Continued from page 7)

We have always found it possible to finance a good and necessary defense program, to find the monies for improved highways, and to subsidize economic venture, but when it comes to adequate education, everybody believes in it but no one is willing to pay for it. Let us understand this one thing. America will give priority to excellence in education or America will lose the Cold War to those who will bring their brain power to the conference table and to the events all over the world foresight and knowledge. For all of the valuable contributions the research laboratories of our corporations can and are making, they will never be able to assume the responsibility of pure research and scholarship that has belonged to our universities.

Our course in education is clear. We must give our educational institutions the priority necessary for such a time, and we must bring all of our weight to bear to impress upon our people their salvation in a world that has those forces that would destroy and oppress them.

When shall we realize that in every school building in the land a struggle is also being waged against all that crowds and distorts human life? The struggle is not as violent; its consequences cannot be recorded in statistics of the physically killed and wounded, nor set forth in terms of territorial changes. But in its slow and imperceptible processes the real battles for human freedom are won. Liberal education today pledges to engage anew and with renewed faith in the greatest of all battles in the cause of human liberation, to the end that all human beings may lead the life that is alone worthy of being entitled wholly human.

Once their programs are adjusted to the demands of the new day, the liberal arts colleges believe that the most important single factor in the educational equation is the trained, devoted teacher. Such a teacher can stimulate and challenge the other factor: the eager, able student. These two factors, supported by books, classrooms and laboratories, nourished in an atmosphere that encourages learning, and inspired and directed by religious purposes, promise a better human product for the new world.

ALUMNALITIES—Continued

New Addresses: Mr. & Mrs. John Pelham Thomas (Marie Hawks '49), Charlotte, N.C.; Maj. Merrill Q. Horton, Columbus AFB, Columbus, Miss.; Raborn L. Davis, Atlanta, Ga.; Maj. William E. Peters, King Salmon, Alaska.

1947—Dr. Laura Newell of Auburn is first vice president of Beta Sigma Chapter of Delta Kappa Gamma Society, an international honorary for women educators.

Edmond R. Sahag is now general manager of Humetrics Division of Thiol Chemical Corp. He and his wife, Louise Holley '49, are living in Los Angeles, Calif.

William S. Flanagan of Florence, vice president of marketing and product development of Flagg-Utica Corporation, has been elected chairman of the advisory board of Genesco. Flagg-Utica is a division of Genesco, a far-flung footwear and apparel firm.

Fred L. Gaines is president of Shell-builder Company of Houston, Tex. His firm processes oyster shell and phosphate for the feed industry.

Lt. Col. Samuel P. McClurkin and his unit are on temporary duty at Incirlik AB, Turkey. Upon completion of his rotational tour there, Col. McClurkin will return to his home base, Seymour Johnson AFB, N. C.

Born: A daughter, Julia Elizabeth, to Mr. & Mrs. Thomas M. Botsford of Opelika on Nov. 13 . . . A son, Michael Bruce, to Mr. & Mrs. C. Herndon (Babe) McGehee (Susan Mizelle Hare '40) of Auburn on Nov. 29.

New Addresses: James Earl Paseur, Laurel, Md.; James H. Hughens, Ft. Worth, Tex.; Lt. Col. Robert E. Dunbar, Huntsville; James M. Benton, Sharon, Pa.; Bruce M. Clark, Jr., Decatur, Ga.

1948—Joe McGee of Eutaw is president of the Greene County Farm Bureau. Mrs. Miles E. Stephens is treasurer of Beta Sigma Chapter of Delta Kappa Gamma Society, an international honorary for women educators.

Ralph Parrish is principal of Atherton School in Decatur, Ga.

Jesse E. Smith of Montgomery is District Supervisor of Vocational Agricultural Education for Northwest Alabama.

Charles J. Plant, Jr., is with Brown Engineering Co. in Cocoa Beach, Fla.

Carl Barley of Tallahassee, Fla., is

with the Survey Dept. of the Florida State Department of Education.

Lester L. Holley, Jr., has been appointed marketing representative for all Lorain products in the Mid-South and has headquarters in Montgomery. He is serving distributors and customers in Alabama, Mississippi, Tennessee, and Kentucky.

Born: A son, David Alan, to Dr. & Mrs. John Eddins of Raleigh, N. C., on Oct. 12.

New Addresses: George E. Deaderick, Los Altos Hills, Calif.; Mr. & Mrs. William E. Hobson, Jr. (Sara Salter '53), Charlotte, N. C.; Mrs. Mary Jo Copeland Cochran, Chattanooga; H. Roudell Byrd, Madison, Wisc.; Lawler N. Thompson, West Mifflin, Pa.; Lloyd G. Elias, Newport Beach, Calif.; Mrs. Laura Powell Hall, Holloman AFB, N. M.; Edward K. Wilson, Jr., Eufaula.

1949—Ed Grant of Louisville has been elected vice president of the Alabama Association of Soil Conservation Supervisors.

Dr. Ann Caudle is vice president of the newly-formed AU Home Economics Alumni Association.

Dr. Charles A. Walton is currently on leave from the University of Kentucky while serving as a Fulbright Exchange Professor at the University of Cairo in Egypt.

Capt. John W. Calhoun, an electronics officer at Lowry AFB, has completed the Air University's Air War College correspondence program, a two-year course that parallels training given in residency at the Air University's highest professional school for preparing senior officers for high level staff and command assignments.

Bob Bedwell of Montgomery is president of the newly-chartered Central Alabama Chapter of Sigma Phi Epsilon Fraternity.

Dr. William R. (Bill) Norman, Jr., Southern Baptist medical missionary to Nigeria, is now on furlough in Montgomery.

Born: A daughter, Nancy Camille, to Mr. & Mrs. Jamie L. Jones, Jr. (Beverly Childs '48), on Nov. 1. Mr. Jones has been director of Baptist Student work at the University of Arkansas since 1951 . . . A son, George Rodgers, to Mr. & Mrs. Robert M. Gatewood of Montgom-

AUBURN GRAD HEADS ARIZONA SCHOOLS—Mrs. Sarah Blanton Folsom '41 (left) recently won election as Arizona State Superintendent of Education after a campaign in which she stressed the necessity of strengthening "the fundamental three R's." Born in Notasulga and reared in Opelika after age eight, Mrs. Folsom earned an A.B. at Judson College and then an M. A. in English at Auburn in 1941. She is married to D. L. Folsom '37 (M.S. '42), who is coordinator of Physical Medicine Rehabilitation Services for the Crippled Veteran's Center in Prescott, Ariz. The Folsoms have two sons, Larry, 20, and Jimmy, 14. On a recent visit to her parents in Opelika, Mrs. Folsom drove over Auburn to renew acquaintances. Above she is shown with Registrar Charles W. Edwards.

ery on Dec. 8 . . . A daughter, Kelly Parker, to Mr. & Mrs. William J. Amberson, Jr. (Bobby Grover), of Birmingham on Oct. 2.

Adopted: A two-month-old son, Jimmie Edward, by Mr. & Mrs. William L. Seal of Springville, Va., in November.

New Addresses: Oliver G. Wilson, Cedar Rapids, Iowa; Mr. & Mrs. Donald W. McCormick (Virginia Louise Morton '49), Atlanta, Ga.; Robert V. Colley, Lake Providence, La.; Alfred E. Booth, Pensacola, Fla.; Oliver E. Lord, Brewton; William F. Dixon, Ozona, Tex.; James C. P. Lyle, Silver Spring, Md.; Jay C. McMullan, Miami, Fla.; Mr. & Mrs. William S. Moore (Marylyn Vaughan '50), Charlotte, N. C.; James L. Price, West Mifflin, Pa.; Mr. & Mrs. John D. Shults (Sarah Ward '49), North Little Rock, Ark.; Corydon H. Walker, Cleveland, Ohio; D. Everett Chambers, Jr., Creve Coeur, Mo.; Maj. Thomas H. Temple, Jr., Shaw AFB, S. C.; Herschel Q. Holley, Yardley, Pa.; Dr. Arlene D. Thal, West Branch, Mich.

Ernest C. Lundberg is now assistant director of research for Minute Maid Groves Corp. and lives in Ft. Pierce, Fla.

1950—W. Boyd Hinton, Jr., is research reports editor in the Advanced Studies Division of Lockheed-Georgia Company in Marietta, Ga. He also teaches freshman English at the Marietta Center of the University of Georgia. His wife, Virginia Cooksey '48, who earned an M. A. in English here in 1958, is working for the Ph.D. in English at the University of Georgia. The Hintons have an 11-year-old daughter, Cynthia, who is in the sixth grade.

George Kelley is a staff clinical psychologist with the Texas Board of Hospitals and Special Schools for the Mentally Retarded. Kelley, his wife (Patricia Jamison '50), and their daughter Karen make their home in Denton, Tex.

J. Gilmer Blackburn, mayor of Decatur, has been elected to the board of directors and the executive committee of the Georgia Life and Health Insurance Company.

Earl M. Lancaster '50 is a partner in the Auburn architectural firm, Lancas-

ter & Lancaster, that is designing Auburn's proposed new high school complex.

Air Force Reserve Maj. George B. Pierce of Auburn recently spent two weeks on active duty with Headquarters at the Air University, Maxwell AFB.

Herbert N. Hawkins, former high school principal and former director of Auburn University High School Relations, has been appointed city superintendent of Brewton schools. Hawkins, who is now pursuing doctoral studies here, will assume his new post on Feb. 1.

Hal C. Ingram, senior engineer in Process Assistance at Chemstrand's Greenwood (S.C.) nylon plant, is being promoted and transferred to Decatur, where he will serve as area supervisor in Beaming and Staple in Chemstrand's new facilities for polyester fiber manufacturing.

Billy J. Mendheim of Omaha, Neb., has been promoted to lieutenant colonel.

Aaron L. Cook has been promoted to the position of senior engineer with Chrysler's Space Division in Huntsville.

William H. Pittman of Columbus recently won the Allstate Life-a-Thon Olympic Contest in the Georgia-Alabama region by selling \$841,211 worth of life insurance within 25 working days.

The Rev. J. Earl Posey, Jr., is a Baptist missionary at Baguio, Philippines.

Born: A son, John Lewis, III, to Mr. & Mrs. John Lewis Mullins, Jr., of Dothan on July 28, 1964 . . . A son, James William, to Mr. & Mrs. Willie F. Kirkland of Birmingham on Nov. 15 . . . A daughter, Sue, to Mr. & Mrs. Lester C. King of Auburn on Oct. 18 . . . A daughter, Susan Jennifer, to Mr. & Mrs. Robert Carlton Bruner, Sr., of Birmingham on Nov. 14 . . . A son, Mathew Jay, to Mr. & Mrs. Henry T. Wingate, Jr. (Mary Grimes '50) of Atlanta on Oct. 28 . . . A daughter, Laura, to Mr. & Mrs. Ted A. Gamble of Greenwood, S.C., on Sept. 7. She joins Richard, 10, and Sharon, 8. Mr. Gamble is now assistant manager of the Social Security District Office in Greenwood.

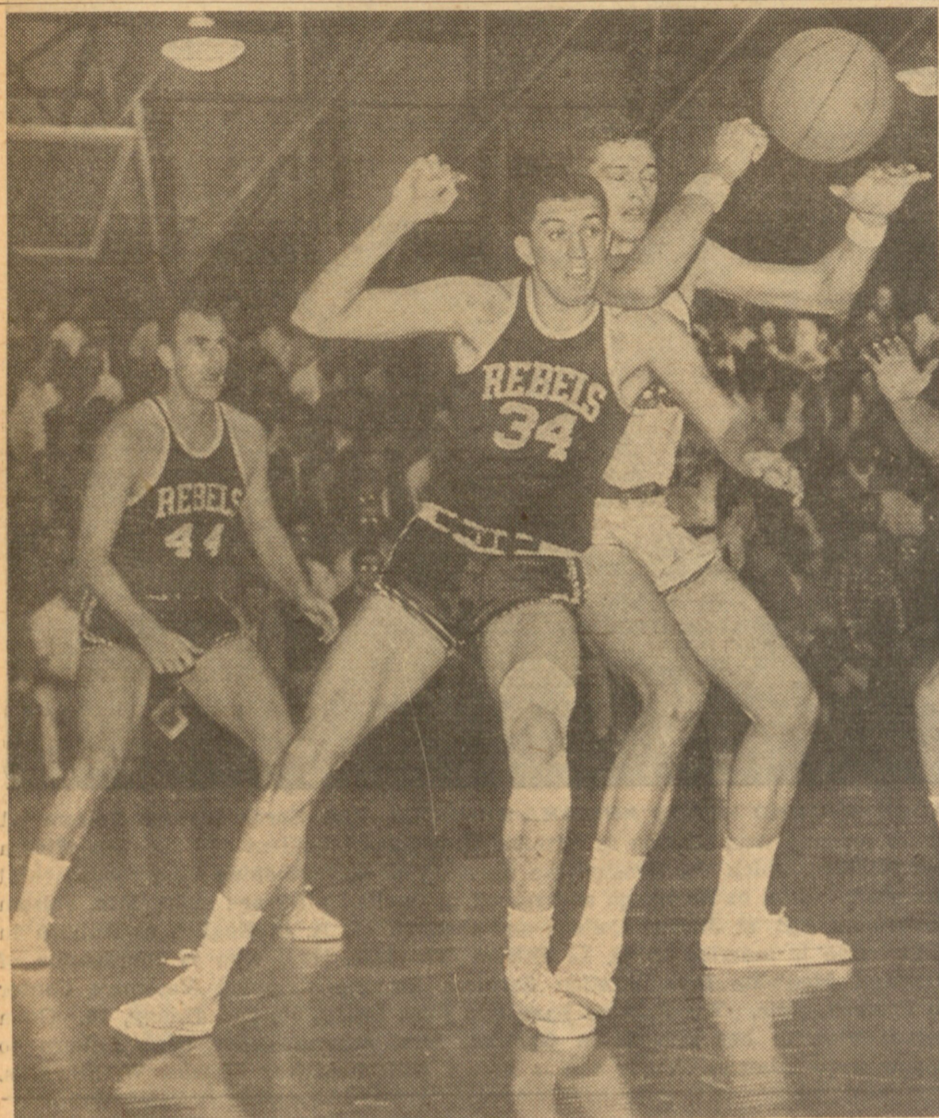

New Addresses: Maj. Awbrey G. Norris, Armed Forces Staff College, Nor-

(Continued on page 11)

CAKE RACE WINNER—Dixie Glenn Foster of Sandy Springs (right), received a cake, trophy, congratulations from Auburn Track Coach Emeritus Wilbur Hutsell (center), and a kiss from Carol Anders of Birmingham, the reigning Miss Auburn, after winning the 36th Annual Omicron Delta Kappa-Wilbur Hutsell Cake Race. Foster, a freshman education major, just missed by 5.6 seconds setting a new record for the 2.7 mile race with a time of 14:36.4 (Photograph by Gil Rogers).

Bill Lynn's Cagers Off To Good Start In SEC

COLLISION ON THE HARDWOOD—John Partridge of Ole Miss and Big Joe Newton crash together in action in the Tigers' second game with the Rebels.

Auburn Signs Fine Set Of Gridders

By **BUDDY DAVIDSON '64**

Recent signings of Al Giffin, fullback from Gainesville, Fla., and Beal Lazenby, halfback from Atlanta, Ga., bring Auburn's 1965 freshman football signee total to 34, and head coach Ralph Jordan and his assistants are still after several outstanding prospects.

Giffin and Lazenby are the two latest signees and both were outstanding runners in the season just concluded. They join Ricky Bullard (FB), Sylacauga; Ray Chadwick (FB) Valley Head; Larry Ellis (FB) Mobile; Bobby Hess (HB) Pensacola, Fla.; Bill Hunt (HB) Florence; Dwight Hurston (HB) Bremen, Ga., and Bobby Wilson (HB) Pensacola, Fla., as running backs for the 1965 frosh.

Jordan and his assistants also came up with a fine crop of quarterbacks, including Larry Blakeney of Gordo, Dwight Brisendine of Fort Payne, Dwayne Lewis of Hamilton, Don Matthews of Birmingham, and Jimmy Weathers of Georgiana.

Brisendine was named Class AAA player of the year by an Alabama newspaper. Other Tiger signees on the AAA All-State team are Bullard and Herschel Poore, tackle from Walter Wellborn in Anniston.

Class AAAA All-Staters signed by the Tigers include Hunt, Bill James, end from Jasper, and Ellis.

Class AA All-Staters who have signed Auburn grant-in-aids include end Terry Barr of Linden, Blakeney, end Don Randolph of Gordo, and Jimmy Weathers of Georgiana.

From Georgia, Auburn signed the State's Most Valuable Lineman, Ron Yarbrough from Columbus. Yarbrough was an offensive tackle and a defensive linebacker. The Tigers also signed one of his teammates, guard Ray Duncan.

The '65 varsity should get some help from the '64 frosh, especially in the backfield. Tailback Bobby Payne of Attalla, Ala., and fullback Lee Kidd of Atlanta gave indications of being able to push some varsity running backs for playing time.

The three freshmen quarterbacks, Loran Carter of Dalton, Ga., and Jimmy Carter and Bucky Ayers, both of Cedartown, Ga., are all going to make their presence known on the varsity practice field when spring training starts.

"We offered fewer scholarships this year than we have in the past and by signing so many so early we know we have gotten a high percentage of the boys we really wanted," says Jordan.

"We signed several outstanding linemen from the Chattanooga, Tenn., area, and our crop of ends and tackles coming in looks real good," Jordan adds.

Here's Auburn's complete list of signees as of January 7, 1965:

AUBURN FOOTBALL SIGNEES

Name	Pos.	Hometown
Terry Barr	E	Linden
Ed Beers	E	Finley, Ohio
Larry Blakeney	QB	Gordo
Dwight Brisendine	QB	Fort Payne
Ricky Bullard	FB	Sylacauga
Ray Chadwick	FB	Valley Head
Ray Duncan	T	Columbus, Ga.
Larry Ellis	FB	Mobile
Al Giffin	FB	Gainesville
Jerry Gordon	E	Chattanooga
Bobby Hess	HB	Pensacola, Fla.
Bucky Howard	T	Birmingham
Bill Hunt	HB	Florence
Dwight Hurston	HB	Bremen, Ga.
Bill James	E	Jasper
Beal Lazenby	HB	Atlanta, Ga.

Off to its best start in six years, Auburn's basketball team has won four straight Southeastern Conference games and is tied with Vanderbilt for top spot in the league standings. Overall, the Tigers have posted nine victories in 11 games. The only two losses came to non-conference opponents in tournament play. Houston trimmed Auburn 50-48 in the first game of the Bluebonnet Classic in Houston, and Clemson tripped the Tigers 77-65 in the first round of the Poinsettia Tournament in Greenville, S.C.

The Tigers opened the season with a solid 60-52 victory over Georgia Tech in Atlanta. Both teams had cold shooting nights from the field, but Auburn's reserves came through early in the game and their unexpected fine play insured the Auburn win. Tee Faircloth had eight points in his first game.

Junior forward Lee DeFore scored a season high of 28 points against FSU in the second game of the year as Auburn defeated Florida State 92-68 in Auburn. Auburn hit 52 per cent of its field goals and 30 of 36 free throws against the Seminoles.

For the first time in the school's history, Auburn beat the Phillips 66 Oilers. Guard Larry Cart scored 25 points and played an outstanding floor game. However, the 78-66 victory does not count in final team or individual statistics.

The first Tiger defeat came in Houston, Tex., when the University of Houston

Cougars used a delay type passing game to down Auburn, 50-48. Houston also used a press which let Auburn have wide open lay-ups. However, the Tigers couldn't hit the easy shots and went down in defeat.

In the second game of the Bluebonnet Classic in Houston, Auburn coasted to a 94-71 victory over Rice University. DeFore led all scorers with 23 points. Auburn pulled down a season high of 56 rebounds and limited Rice to only 26.

In a warm-up game before the Poinsettia Tournament, Auburn handed visiting Georgia Southern an 80-64 setback. DeFore scored 19 points and Joe Newton added 17 against Southern.

Clemson had its hottest shooting night of the season, hitting 55.8 per cent of its shots while Auburn had a cold 34.3 night. Clemson also hit 29 of 36 free throws.

Sophomore guard Bobby Buisson came off the bench and scored 18 points for Auburn. Newton scored 20 and was high for the Tigers.

In the consolation game of the tournament, Auburn found the range from the floor, hitting 59.4 per cent of its field goals in defeating Furman 107-86. DeFore had 28 points, Cart 20 and Freddie Guy 19. Guy also pulled down a season high of 22 rebounds.

After the Poinsettia Tournament, Auburn opened SEC play with a 71-70 victory over Mississippi State in Starkville. Auburn didn't take the lead until the last 18 seconds when Ronnie Quick hit a jump shot to make the score 71-70.

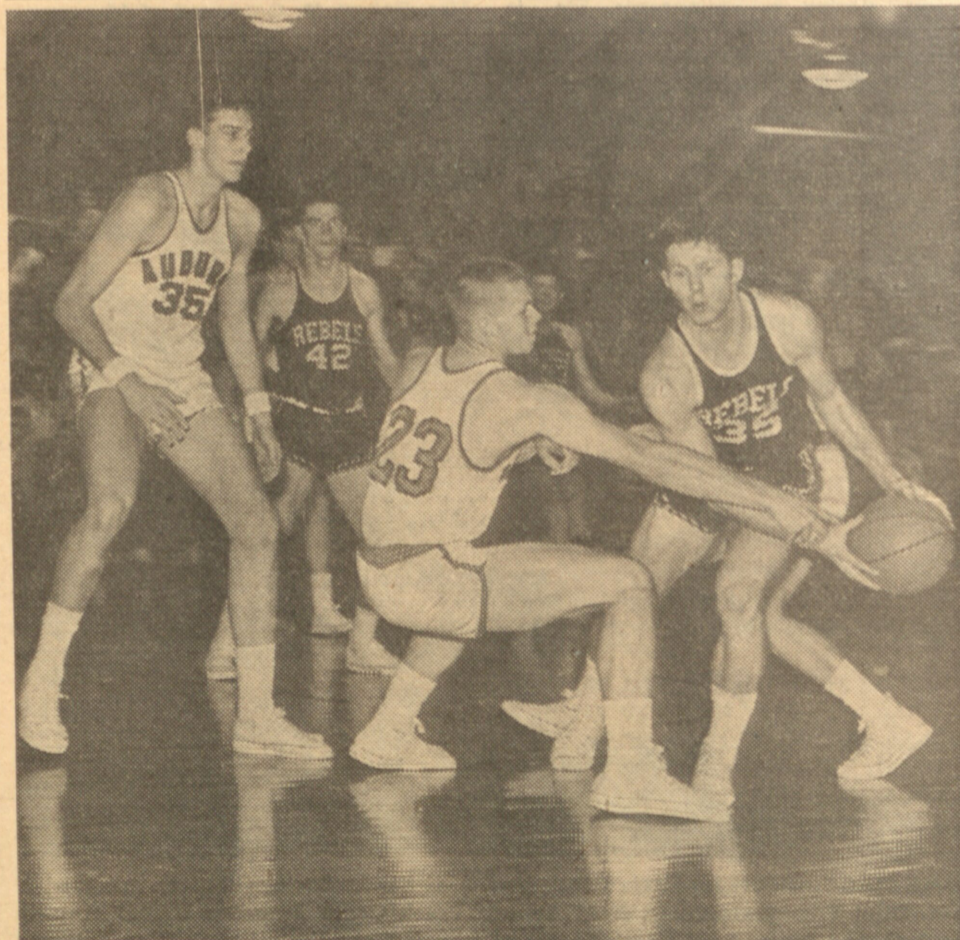

Freddie Guy and Tommy Fibbe took scoring honors against State with 14 each.

Mississippi State hit 57.8 per cent of its floor shots but made only 15 attempts in the second half. The Bulldogs led by 12 points with just eight minutes to play, but Quick scored four baskets, Tim Pearson two and Herbert Greene three in the final eight minutes to overcome the lead.

State hit only 18 of 28 free throws

(Continued on page 11)

Dwayne Lewis	QB	Hamilton
Tim Lyle	T	Chattanooga
Don Matthews	QB	Birmingham
David Mull	E	Sylacauga
Dean Patterson	G	Pensacola, Fla.
Dick Pittman	T	Dothan
Herschel Poore	T	Anniston
Don Randolph	E	Gordo
Scott Stewart	E	Chattanooga
Lenford Smith	E	Hartwell, Ga.
Pat Stewart	T	Chattanooga
Joe Varner	T	Soddy Daisy
Jimmy Weathers	QB	Georgiana
Ron Webster	E	Childersburg
Bobby Wilson	HB	Pensacola, Fla.
Ron Yarbrough	T	Columbus, Ga.
Andy Cyganowicz	T	Albany, Ga.
Greg Robert	T	Columbus, M.

GUARDING CLOSE—Auburn's Tommy Fibbe (23) presses Eddie Dunn of Ole Miss as he attempts to pass the ball in Sports Arena play at Auburn on January 11.

1951—John H. Becton, Grove Hill banker, was chairman of the Twelfth Annual Agricultural Credit Conference sponsored by the Agricultural Committee of the Alabama Bankers Association with the cooperation of Auburn University.

Jim Douglas, U. S. Forest Service, is in charge of the hydrology research on the Coweeta Watershed, North Carolina. This 5,600-acre Forest Service hydrologic laboratory was featured in a recent USDA News Bulletin.

Nick Harris, Montgomery, has been elected vice president of the Alabama Soil Fertility Society after having served as secretary.

Dwight Hulan is associated with the Mississippi Chemical Corp. at Geneva.

Richard E. Powell was recently promoted to Division Commercial Supervisor of Southern Bell Telephone at

Mobile. He and Mrs. Powell (Betty Smith '54) have two children.

Mrs. Lucy Vinson Hagler of Auburn was recently appointed by Governor George C. Wallace to serve as member-at-large on the Governor's Industrial Advisory Committee. Mrs. Hagler is active in the field of education and teaches in the Auburn elementary school system.

Dr. Bailey L. Donnally, associate professor of physics at Lake Forest (Ill.) College, participated in the December 8 colloquium held at the Enrico Fermi Institute for Nuclear Study, University of Chicago. Dr. Donnally was recently elected president of the American Association of Physics Teachers—Chicago Section for the 1965-66 term.

Capt. Robert C. Vickery recently reported for duty at Holloman AFB, N. M. Dr. Clarence H. Roy is research director for MacDermid, Inc., in Waterbury, Conn.

Born: A son, Richard Nelson, to Mr. & Mrs. James H. Spinks of San Antonio, Tex., on Nov. 21 . . . A son, James A., III, to Mr. & Mrs. J. A. Beaty, Jr., of Albertville on Oct. 17.

New Addresses: Frederick C. Mitchell, Calera; Charles W. Stewart, Torrance, Calif.; Curtis R. Helms, Huntsville; J. William Myers, Birmingham; C. Allen Bates, Glenn Ellyn, Ill.; Lcdr. Virgil F. Forsberg, Norfolk, Va.; Richard G. Shirley, Albuquerque, N. M.; W. Young Daniel, Bayside, Wis.; Carroll Wayne Campbell, Greeneville, Tenn.; Joe R. Capell, Montgomery; Alfred S. Williams, Huntsville; James E. Webster, Doraville, Ga.; Olander C. Riser, Jr., San Jose, Calif. Capt. Thomas Motes, Lincoln, Neb.; Lt. Charles E. DeRamus, Jr., Salinas, Calif.

1952—Lamar Beach was recently promoted to the newly established position of Director of Field Sales and Customer Service for Chemstrand Co. Division of Monsanto Co. He will direct the ac-

DOUBLE DOUBLES—There's more similarity than meets the eye in the case of Auburn University co-ed twins Jill and Jackie Weems (seated) and Sara and Susan Vaughan (standing). They are suite-mates, sharing adjoining dormitory rooms; they are Chi Omega Sorority sisters and all are sophomores majoring in education. Chi Omega has only one president and Jackie holds that office. She and Jill are both members of Cwens, sophomore honorary, and both are Glomerata staff members. They are the daughters of Mrs. A. J. Weems of Montgomery. Sara and Susan's parents are Mr. and Mrs. W. Y. Vaughan of Uniontown.

Letter From Shug

DEAR ALUMNI: Things are very routine here at Auburn Athletic Department except for the fact that Bill Lynn and the Auburn Basketball Team have gotten off to a very fine start, and we feel that they will be most representative as the season goes on.

We have signed 34 football players as of this date, and we are working on others, primarily backfield men, and I hope to make announcements of the other six boys that we are entitled to sometime in the near future.

Coach Jordan

Most of the coaches are attending the NCAA Meeting at this time, and as for the head coach, I have been attending High School Banquets, Quarterback Clubs, and dinners as far south as Hollywood, Florida. The one in Hollywood was great in that it honored one of the finest football players that Auburn or any other school has ever had, Tucker Frederickson.

George Atkins has once again organized a most comprehensive weight lifting program, which as in other years will develop our football players mentally and physically, the idea being that they have to improve as individuals before we can improve as a team.

The dates for Spring Practice will be April 12 with "A" Day on May 15. We will practice four days a week for five weeks, this all being in the Spring Quarter. I would like to start now urging all of you to come to Auburn for the "A" Day Game. As you probably know most of the proceeds go to the Auburn Band for scholarship help under the able direction of Dr. Bodie Hinton. In other years there have been excuses like the Kentucky Derby, Mother's Day, etc. "A" Day this year is after these holidays so let's all start now to make our plans to descend on Auburn for the biggest crowd that has ever attended an "A" Day game.

May I on behalf of the assistant coaches and myself wish you all a Happy and Most Prosperous New Year.

Sincerely,
Shug

Cagers Start Well

(Continued from page 10)

and missed the first shot on three one-and-one situations in the last three minutes when Auburn was fouling in an effort to get the ball.

Two nights later Auburn beat Ole Miss 77-53, hitting 50 per cent of its floor shots. Ole Miss hit only 25 per cent and netted just 16 field goals all night.

Four Tigers starters hit in double figures, with Cart high man at 15. Auburn also out rebounded Ole Miss 53-35.

In Auburn's first conference game at home the Tigers turned back previously unbeaten (in SEC play) Florida, 74-63. Cart played a spectacular floor game, making great passes for important baskets off the fast break.

DeFore, who missed the first two conference games because of an illness, came off the bench to lead all scorers with 24 points. Auburn hit 27 of 51 field goal attempts for 52.8 per cent.

Auburn picked up its fourth straight SEC victory by downing Ole Miss at Sports Arena, 67-52. DeFore was high with 16 points.

Ole Miss played a deliberate style offense designed to get the good percentage shot. The strategy worked as the Rebels hit 46 per cent of their shots, compared to only 25 per cent in the first meeting.

However, Auburn hit 49 per cent on 25 of 51 and made six more field goals than Ole Miss.

tivities of Chemstrand's district sales offices at Charlotte, N. C., Akron, Ohio, and New York.

Robert Larry Edmunds has been elected secretary of Avondale Mills, Sylacauga, by the Board of Directors. He and Mrs. Edmunds (Sara Peters '47) have three children—Melanie, Cathy, and Robert, Jr.

New Addresses: Frank W. McDonald, Tucker, Ga.; Mrs. Helen Winfree Grimes, Notasulga; Joe H. Brown, Jr., Athens; Maj. Fred A. Williams, Goodwater; Capt. McQueen S. Wadsworth, Wetumpka; Mr. & Mrs. William F. Dupree (Betty Pratt '52), Annandale, Va.; William B. Parker, Brewton.

1953—Foy C. Thompson is football coach at Ramey AFB High School, Puerto Rico. The final game of the 1964 season marked the third season the Bombers have won the Puerto Rican Athletic Alliance football championship—unbeaten and untied for 23 consecutive games. Mr. & Mrs. Thompson (Trudy Griffin '52) have four children—Deborah, 10; Trudy, 9; Kathy, 6; and Foy, Jr., 10 months.

Murray D. Langford was recently appointed sales representative in the Agricultural Chemicals Sales Department of Commercial Solvents Corp. of New York and has been assigned to the Southeastern Sales District covering Alabama and northwestern Florida. Mr. & Mrs. Langford and their three children

Murray Langford

reside in Troy. **Born:** A daughter, Amy Jean, to Mr. & Mrs. Jessie Eugene Hughes of Montgomery on Nov. 16.

Adopted: A son, David Thomas, who was born May 3, 1964, by Mr. & Mrs. Thomas H. Scott (Janet Cosby '54) of Gainesville, Fla. He joins Jan. 3. Mr. Scott is working toward his Ph.D. in Nuclear Engineering on a fellowship from the Oak Ridge Institute of Nuclear Studies.

1954—Dr. George Robert (Bob) Burns has joined the staff of the Sulphur Institute in Washington, D. C., as assistant to the Director of Agricultural Research for Agricultural Sciences.

Dr. James E. Martin recently joined the staff of Oklahoma State University at Stillwater as associate professor in the Department of Agricultural Economics. He and Mrs. Martin (R. Ann Freeman '57) have three children—Mike, 6; Bill, 3; and Jill, 18 months.

Capt. Leland G. Bryan has been certified as a C-124 Globemaster aircraft commander at Dover AFB, Del.

The Rev. Henry C. Bailey is pastor of Westhaven Heights Baptist Church at Hialeah, Fla.

Henry D. Collier, Jr., has been promoted to assistant branch manager of the Detroit Branch of Todd Division of Burroughs Corp. and lives in Birmingham, Mich.

Capt. James A. Cannon was recently awarded the U. S. Air Force Air Medal for meritorious achievement during aerial flights in support of the fight against communist aggression in Viet Nam.

Mel Fuller has been named head of the science department at St. Petersburg (Fla.) Senior High School. He is also serving his fourth year as chemistry advisor at the Science Center of St. Petersburg, a civic organization for accelerated science students in Pinellas County, Fla.

L. A. "Tony" Wood was recently appointed public relations manager in the Florida Area Public Relations Office of Southern Bell Telephone with headquarters in Jacksonville. He and his wife Becky '57 have three children.

Mrs. Laura M. Parrish teaches at Snapfinger School, Decatur, Ga.

Robert M. Cheney of Montgomery is secretary of the newly-chartered Central Alabama Alumni Chapter of Sigma Phi Epsilon.

Born: A son, John Phillip, to Mr. & Mrs. George Allan Harris (Wilda Ann Holmes '57) of Grady on Nov. 9 . . . A son, Timothy David, to the Rev. & Mrs. David Carter (Patricia Merchant '55) of Elba on Oct. 30. He joins Claire, 8, and Ed Willis, 3 . . . A daughter, Lucy Ann, to Mr. & Mrs. Walter L. Rice, Jr., of Opelika on Nov. 8 . . . A daughter, Allison Faye, to Mr. & Mrs. David Irvine of Burlington, N. C., on Oct. 27.

1955—Dr. Louis Welch, who earned a Master's degree in Agronomy and Soils at Auburn, was recently appointed as-

SWITZERLAND BOUND—Dr. David M. Hall '58 and his bride of Nov. 28, Mrs. Florence Barrett Hall, are on their way to Switzerland, where he will study "The Nature of the Chemical Bond in Formaldehyde-Treated Cellulose" on a post-doctoral fellowship at the Swiss Federal Institute of Technology in Zurich.

ALUMNALITIES—Continued

sociate professor of Soil Fertility at the University of Illinois.

Capt. James R. Hathcock, assistant professor of aerospace studies at Auburn, recently received the Air Force Commendation Medal for meritorious services as instructor navigator with the 50th Air Transport Squadron in Hawaii. The presentation was made at a tri-service military review at Auburn Dec. 3.

Jack Thompson has been named assistant county agent for Montgomery County after serving as assistant agent in Franklin County for the past year. He and his wife have four children.

Mrs. Frieda Steele White of Auburn conducted the candle lighting service at the Founder's Day banquet of Phi Theta chapter of Delta Delta Delta Sorority in Auburn Nov. 23.

Capt. Joseph Benoski, Jr., his wife, and son have been reassigned to Headquarters, United States Army Europe in Heidelberg, Germany.

Stella Pearce is now Mrs. Ned Walter Schaaf and lives in Livermore, Calif.

Adopted: A son, Gary Kirk, who was born in July, by Dr. & Mrs. Donald J. Hallas (Martha Foss '55) of St. Petersburg, Fla. Dr. Hallas graduated from Illinois College of Optometry in May and is practicing in St. Petersburg.

Born: A son, Denis John, to Mr. & Mrs. Denis H. Alcock of Birmingham on Nov. 20 . . . A son, Jack McRae, to Mr. & Mrs. John W. Amoss of Auburn on Nov. 8 . . . A daughter, Rebecca, to Mr. & Mrs. Finley B. Garnett (Lois Schrader '53) of Titusville, Fla., on Nov. 2 . . . A son, Dan Greene, Jr., to Mr. & Mrs. Dan G. Bradley (Miriam Rebecca Longshore '55) of Birmingham on Nov. 10.

1956—Frederic Lee Smith, vice president of the Sparrow Agency in Birmingham, was speaker at a meeting of The Advertising Club of Montgomery recently.

Mrs. Inez Gritz is secretary of the newly-formed AU Home Economics Alumni Association.

Jerry D. Hall is associated with Albright and Wood Drug Co. at Springhill.

Mr. & Mrs. William A. Horn (Sylvia McCalla '55) and children Sharon and Kelly are spending three months in the States before returning to Japan for another three years.

Born: A daughter, Mary Karen, to Mr. & Mrs. Jack Reid Cain of Birmingham on Oct. 12 . . . A daughter, Sharon Sue, to Mr. & Mrs. Jerry Lewis Savage of Statesboro, Ga., on Dec. 8 . . . A daughter, Cindy Leigh, to Mr. & Mrs. Durwood J. Golden of Birmingham on Oct. 27 . . . A son, Jack MacNeal, II, to Mr. & Mrs. Jack M. Chapman of Trenton, N. J., on Nov. 2. Mr. Chapman is a structural engineer with American Bridge Division . . . A son, Arthur Prewitt, to Mr. & Mrs. Don Lee Farmer of Birmingham on Oct. 30.

Adopted: A daughter, Alison, 6½ months old, by Mr. & Mrs. W. Harold Moon (Kay Alice Thiel '57) of Auburn.

Married: Rebecca Ann Lawson to Charles Donald Newman in Auburn on Dec. 27. He is an engineer with NASA in Huntsville.

1957—Floyd R. Singleton, Auburn, recently qualified as a member of the 1964 Star Club of New York Life Insurance Co. Membership in the Star Club is based on 1963-64 sales records and is composed of outstanding agents of New York Life.

William P. Yarbrough has been transferred to Pittsburgh, Pa., as sales representative for Gaylord Container Division of Crown Zellerbach Corp. Bill and his wife (Mary Davenport '58) have two children, Susan, 5, and Billy, 2½.

George R. Breeden is a chemist with Chemstrand Co. in Decatur. He is married to Mary Sue Beasley '60.

Mrs. Beulah Thrasher Glasgow has been elected president of the Cleburne County Teachers' Association for 1964-65. She served as chairman of the steering committee during the self-study conducted in the Cleburne County Elementary School, where she teaches fourth grade. Mrs. Glasgow recently received an invitation from The State Department of Education to attend the Southern States Work Conference in Daytona Beach, Fla., June 7-11 to work with the committee studying the Social Studies Program. She and her husband have three sons.

Mrs. Glasgow

Eugene S. Carter, Jr., is employed by the Florida National Bank and Trust Co. in Miami, Fla., and was recently

First Auburn Grad In The Field—

David Hall Gets Doctorate Abroad

On Dec. 12, David M. Hall '58 received the Ph.D. from Victoria University, Manchester, England, to become the first Auburn graduate ever to earn the highest degree in textile chemistry. Hall went to England for his doctoral studies because no American university offers a doctorate in textile chemistry.

promoted to captain in the U. S. Army Reserve. He and his wife Judy have a daughter, Carolyn, 2.

Born: A son, Scott William, to Capt. & Mrs. William E. Bartlett, Jr., at Ft. Belvoir, Va., on Nov. 9 . . . A son, Dennis Glenn, to Mr. & Mrs. Glenn E. Webb, Jr. (Patricia Ann Dennis '57) of Huntsville on Sept. 9 . . . A son, Gregory Ellis, to Mr. & Mrs. Ellis Tirey (Lou McWilliams '57) of Decatur, Ga., on Oct. 19. He joins brother Ken, 16 months . . . A son, James Glen, III, to Dr. & Mrs. James Glen Sanders, Jr., of Montgomery on Nov. 20 . . . A son, William George, Jr., to Mr. & Mrs. William George Murray of Birmingham on Nov. 27 . . . A daughter, Karen Renee, to Capt. & Mrs. William H. Wood, Jr., (Eleanor Haynes '59) of Auburn on Sept. 25 . . . A daughter, Cristy, to Mr. & Mrs. Diran Palanjian of Mobile.

1958—Billy Maples, Elkmont, has succeeded Jim Brady '61 as chairman of the Young People's Committee of the Alabama Farm Bureau.

Capt. George W. Johnson, Jr., recently completed a three-year tour with the Army in France, where he was the senior engineer officer for the post. After attending the Engineer Officers' Career Course at Ft. Belvoir, Va., he is now assigned to the 1st Engineer Battalion, 1st Infantry Division, Ft. Riley, Kans. He and his wife Nancy have a 19-month-old son, George.

Dr. William M. Suttles recently received the Alumnus of the Year Award from Georgia State College in Atlanta.

U. S. Air Force Capt. Tommy R. Ogletree has been admitted to practice before the Supreme Court of the United States and the Court of Military Appeals in Washington, D. C. A former assistant attorney general for the State of Alabama, Capt. Ogletree is now assigned at Hunter AFB, Ga., as an assistant staff judge advocate. He is married to Peggy S. Hill '61.

Capt. Ogletree

Mr. & Mrs. Terry Christopher (Ruth Nalley '58) are living in Montgomery, where he is a project engineer with Kershaw Mfg. Co., Inc.

Anne P. Metcalf is now Mrs. Anne M. Flack and lives in Atlanta, Ga.

Lt. & Mrs. Carl Missildine (Vickie Fay Dean '61) and two children recently moved from Hawaii to Milton, Fla., where Lt. Missildine is stationed at Whiting Field.

Jer-Yu Shang received the Doctor of Philosophy degree in chemical engineering from the Polytechnic Institute of Brooklyn last June.

Ralph H. Mitchell was recently promoted to captain in the U. S. Air Force at Reese AFB, Tex.

Mrs. Carolyn Beck of Auburn is president of the recently organized AU Home Economics Alumni Association.

Born: A daughter, Tamara Lynn, to Capt. & Mrs. Frank Hines in Miami, Fla., on Dec. 10 . . . A son, Joseph Michael, to Mr. & Mrs. Charles H. Peterson, Jr., of Auburn on Dec. 15 . . . A son, Vernon Kent, to Mr. & Mrs. Raford B. Furlow of Opelika on Nov. 29 . . . A son, Joe Mark, to Mr. & Mrs. Lonnie Joe Street of Montgomery on Dec. 11 . . . A daughter, Patricia Lynn, to Mr. & Mrs.

An outstanding student throughout his career, Hall has earned all of his college degrees through scholarships and fellowships. He came to Auburn on an Avondale scholarship, after establishing an excellent record at LaFayette High School.

Graduating from Auburn in 1958 with a B.S. in textile chemistry, he also received an ROTC commission and then went on a six-month tour of active duty with the Corps of Engineers. Next came two years of work with the American Viscose Corporation in Fredericksburg, Va. Then he went to Clemson University for graduate study on a Celanese Corporation of America Fellowship.

Upon receiving an M.S. in textile chemistry from Clemson, Hall accepted a doctoral study fellowship from Victoria University at which he did dissertation research on some polyester-urethane block co-polymers.

After completing his doctoral work, Hall returned to Virginia to marry Miss Florence Barrett of Fredericksburg, a graduate of the University of Virginia and a graduate student there under a National Science Foundation Fellowship. Mrs. Hall—a biology major, who has also studied at the University of Kentucky—is interrupting her graduate studies temporarily to accompany her husband to Switzerland. Dr. Hall now has another fellowship, a post-doctoral grant from the U.S. Department of Agriculture to study "The Nature of the Chemical Bond in Formaldehyde-Treated Cellulose" at the Swiss Federal Institute in Zurich, Switzerland.

John Robert Henson of Montgomery on Oct. 31 . . . A son, James Todd, to Mr. & Mrs. Carl Rosser Camp, Jr., of Auburn on Nov. 1. He joins two-year-old Allen Martin . . . A son, Douglas Maxwell, to Mr. & Mrs. Louie Letlow of Opelika on Nov. 26 . . . A son, Hallard Samuel, to Mr. & Mrs. Samuel A. Bray of Metairie, La., on Nov. 9. He joins sisters Emily, 3, and Roslyn, 2 . . . A son, Robert James, to Mr. & Mrs. Robert T. Wingate of Hampton, Va., on Nov. 27 . . . A daughter, Elizabeth Louise, to Mr. & Mrs. Robert Lee Sanford (Lois von Seeberg '59) of Prattville on Oct. 29.

1959—Navy Lt. William E. Owen is serving aboard the submarine USS Odax, operating out of Charleston, S. C.

Ollie L. Vance is working toward the Ph.D. degree at the University of Texas.

Capt. Thomas N. Arnold was among U. S. Pacific Air Forces personnel who recently participated in Exercise Sky Soldier/Tien Bing VI, a joint U. S.-Republic of China training maneuver in central Formosa.

1/Lt. Robert E. Sellers recently reported for duty at Maxwell AFB, where he is a military training instructor.

Sammie L. Ginn was recently promoted from District Plant Supervisor, Jacksonville, to Sales Manager, Miami, with American Telephone & Telegraph Co. He and Mrs. Ginn are parents of a son, Lou Matthew, who was born July 14.

Guillermo Isaza Angel is the Chief Electrical Engineer for Cementos del Valle S/A in Cali, Colombia.

Born: A daughter, Karen Denise, to

(Continued on page 13)

State Wildlife Foundation Organized

Mr. & Mrs. William B. Worthington of Birmingham on Sept. 25 . . . A son, Gary Alan, to Mr. & Mrs. George H. Nash (Jane Reeve '57) of Birmingham on Oct. 13 . . . A daughter, Robin Kay, to Mr. & Mrs. Howard Davenport of Batesville, Miss., on Oct. 26. She joins sister Beth, 5. Howard is a field representative for Standard Oil Co. . . . A son, Perry Douglas, Jr., to Mr. & Mrs. Perry D. Mathis of Birmingham on Nov. 15 . . . A son, David Alan, to Mr. & Mrs. Alan Reeves (Dorothy Campbell '59) of Roswell, Ga., on Nov. 11 . . . A daughter, Alice Marie, to Mr. & Mrs. Paul B. Adamson, Jr., of Birmingham on Nov. 9 . . . A daughter, Cheryl Renee, to Mr. & Mrs. Maurice F. Wilhelm, Jr., of Birmingham on Oct. 2.

1960—Howard A. Holley, Michael E. Hodges, and Guy E. Womack, who are all employed by the E. I. duPont Co. at the Savannah River Plant in Aiken, S. C., are key officers in the 210th Signal Co. (Base Depot), U. S. Army Reserve of Augusta, Ga. Capt. Holley is the commanding officer, 1/Lt. Hodges is the executive officer, and 1/Lt. Womack is the supply officer and a section leader.

Robert E. Ames was recently transferred by United States Testing Co., Inc., to their main offices in Hoboken, N. J., where he is assistant manager of the Chemical Division. He and Mrs. Ames (Ouida Cunningham '60) and two daughters, Robin and Susan, live in Glen Rock, N. J.

J. Hubert Crim has been transferred from Atlanta to Birmingham by General Electric Computers.

Mrs. Glenn Buttram is recording secretary for Beta Sigma Chapter of Delta Kappa Gamma Society, an international honorary for women educators.

Mr. & Mrs. L. Wilson Hall (Thelma Mullinax '59) are living in Rome, Ga., where they both are teaching at Shorter College in the Department of English.

Clarence C. Campbell recently was promoted to captain in the U. S. Air Force at Thule AB, Greenland.

Barnie Allen Parker is customer requirements representative with Westinghouse Defense & Space Center in Baltimore, Md., and lives at Severna Park.

Mrs. Linda Hall Trucks is teaching music and math at South East Lake Elementary School in Birmingham. She and her husband Robert have a three-year-old son, Rob.

1/Lt. Bobby G. Taylor recently completed the orientation course for officers of the U. S. Air Force medical service at Gunter AFB and has returned to his Alabama Air National Guard unit at Birmingham.

Richard T. "Dick" Moreman, interior decorator, recently opened a retail furniture specialty shop in Opelika.

Roy C. Billingsley was recently commissioned a second lieutenant in the U. S. Air Force upon graduation from Officer Training School at Lackland AFB, Tex. He is presently assigned to an Air Training Command unit at Amarillo AFB, Tex.

1/Lt. Ennis A. Roper recently graduated from the U. S. Air Force's Squadron Officer School at the Air University, Maxwell AFB.

Born: A son, William Deaton, to Mr. & Mrs. Jack Daniel Nix of Birmingham on Oct. 25 . . . A son, Mark Howard, to Mr. & Mrs. Howard L. Manning, Jr. (Barbara Jane Robinson '60) of Birmingham on Nov. 19 . . . A daughter, Terri Lanette, to Mr. & Mrs. Brice F. Marsh of Wappingers Falls, N. Y., on Sept. 26. Mr. Marsh is a technical writer with the IBM Corp. in Poughkeepsie . . . A daughter, Juanice Lynn, to Mr. & Mrs.

A group of well-known Alabamians met on the Auburn campus Dec. 8 to take the preliminary steps necessary for the establishment of an organization to encourage and promote wildlife research and to disseminate wildlife information to the citizens of Alabama.

As a result of the efforts of this group, the Alabama Wildlife Research Foundation has been incorporated this month with its principal office in Auburn. The Foundation will endeavor to obtain endowment and other operational funds to support wildlife research and other objectives of the organization.

Wildlife includes all forms of wild-life in or on air, water, and land, according to Dr. E. O. Majure of Tallassee, who was named chairman of the Foundation. Charles Kelley of Montgomery was named secretary.

At the meeting here, Dr. E. V. Smith, dean, School of Agriculture and vice-chairman of the new group, presented a concise history of wildlife research at Auburn University.

Attorney Thomas Samford of Opelika presented the articles of incorporation and reviewed proposed by-laws for the organization.

A special luncheon featuring products of Auburn research and wild turkey highlighted the meeting.

Named as trustees for the Alabama Wildlife Research Foundation were James H. Crow of Decatur, Don Drennen Sr., of Birmingham, Dr. M. W. Gaillard of Mobile, Joseph D. Hughes of Pittsburgh, Pa., A. L. Johnson of Camden, Claude Kelley of Montgomery, Neil Kilgore of Jasper, Dr. E. O. Majure of Tallassee, R. V. Miles of Tuscaloosa, W. J. Samford of Opelika, and Dr. E. V. Smith of Auburn.

IN ORGANIZATIONAL MEETING—The Alabama Wildlife Research Foundation was incorporated this month as a non-profit organization, with headquarters at Auburn University, to promote and encourage wildlife research throughout the state. Board of trustee members, front row from

left: W. J. Samford, Opelika; James H. Crow, Decatur; Dr. E. O. Majure, chairman, Tallassee; Dr. E. V. Smith, Vice-chairman, Auburn. Back row from left: Claude Kelley, Montgomery; A. L. Johnson, Camden; Dr. M. W. Gaillard, Mobile; R. V. Miles, Tuscaloosa. (Auburn University photo).

James K. Shelton of Montgomery on Sept. 3 . . . A daughter, Augusta Marshall, to Mr. & Mrs. William Long Forbes (Augusta Faull '58) of Birmingham on Oct. 7 . . . A daughter, Lenora Holland (Holly), to Mr. & Mrs. Wayne Sims (Jo Ann Vaught '60) of Scottsboro on Sept. 10 . . . A daughter, Leslie Jeanette, to Mr. & Mrs. Thomas Leroy Spruiell (Melba Jeanette Ham '60) of Birmingham on Oct. 18 . . . A son, Andrew Thomas, to Dr. & Mrs. Charles D. Baird (Barbara Booth '59) of Birmingham on Nov. 23.

Married: Lynda Stewart to Tommy Ted Anderson in LaFayette on Jan. 16.

1961—Dr. Alta Millican is parliamentarian for Beta Sigma Chapter of Delta Kappa Gamma, an international honorary for women educators.

Dr. Donald L. Boyd is practicing medicine in Augusta, Ga.

Mrs. Taska Pearson Haraway is a secretary with Flagg-Utica Corp. in Florence.

Carl P. Myatt, who earned his degree here in Building Construction, is now studying for a degree in Architecture at North Carolina State University. He worked for the firm of Adrian P. Stout in Greensboro from 1961-1964.

Ray C. Morgan completed a tour of active duty as an ensign with the Navy in September and is now with Allstate Insurance Co. in St. Petersburg, Fla.

Hugh Ed Turner, after completing three months of training in international

living at Putney, Vt., arrived in East Pakistan on Oct. 8 on assignment with the Peace Corps. He is working in the East Pakistan Rural Public Works Program and is assisting in the development of a Basic Democracies Training Institute in Daulatpur.

Robert M. Pouncey of Daleville has been promoted to assistant forester at Fort Rucker.

Charles M. Sanders, Jr., received an LL.B. degree from Tulane University last June and is now a first lieutenant in the Army in the Judge Advocate General's court. He will go to the University of Virginia to attend Law School there under Army sponsorship. He is married to Linda Tamplin '61.

Dr. Harold C. Steele is now on the faculty at Livingston State College. He is married to Myrtis Glenn Cofield '58.

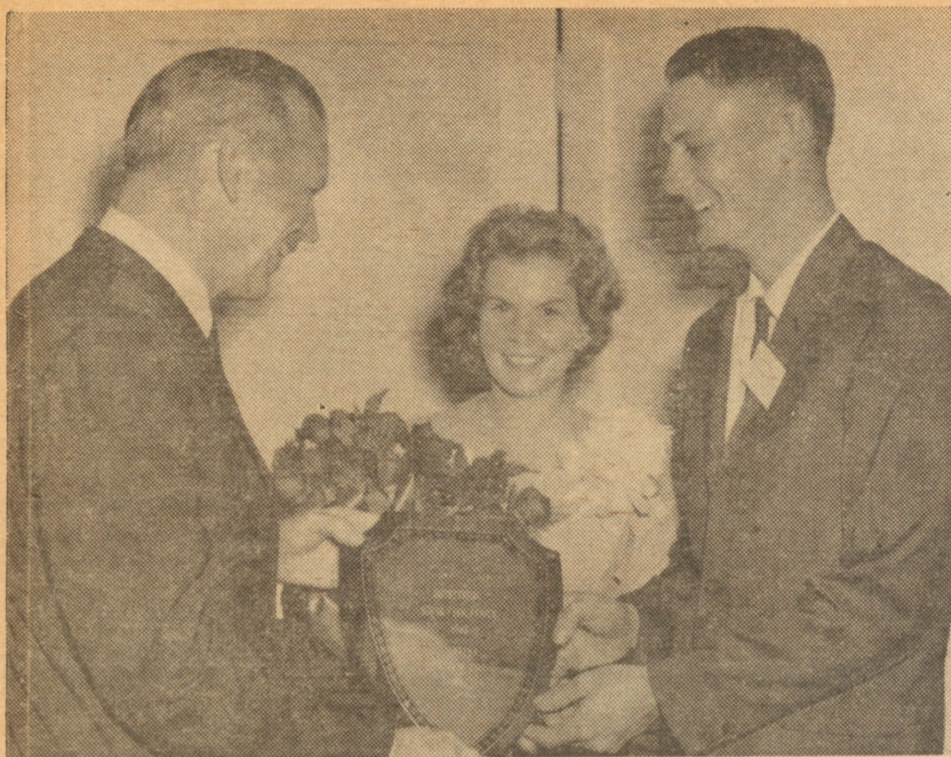

Married: Sheila Ann Mann to Howard Eugene Williams in Ashford on Sept. 6 . . . Brenda Pope to Ens. Sigfried W. Hauck in Old Hickory, Tenn., on Dec. 19 . . . Donna Kay Henderson to Glenn Peter Campbell in Phoenix, Ariz., on Dec. 26.

Born: A son, Timothy Michael, to Mr. & Mrs. Billy Broach (Nan Clapp '61) on Oct. 23. He joins a brother, Jeff, 2. Mr. Broach is employed at Heat Technology Lab in Huntsville . . . A daughter, Sherry Lynn, to Mr. & Mrs. Cecil L. Murphy (Margaret Henry '60) of Livingston on June 25, 1964. She is their

second child, Mr. Murphy is a graduate assistant at Livingston State while working for an M.S. in biology . . . A daughter, Carla Jane, to Mr. & Mrs. Ted Bullard (Mary Ann Chalker '61) of Auburn on Sept. 15 . . . A daughter, Stephanie Leigh, to Mr. & Mrs. John Culpepper Sawyer, Jr., of Birmingham on Oct. 19 . . . A son, William Tyler, to Mr. & Mrs. William LeRoy May (Carolyn Bray '63) of Decatur on Oct. 15. Mr. May is an industrial engineer with Chemstrand . . . A daughter, Suzanne, to Mr. & Mrs. James A. McCrorie of Birmingham on Nov. 14 . . . A son, Brantley Ray, to Mr. & Mrs. Tommy Ray Watts (Anna Brantley '64) of New Orleans on Oct. 14. Tommy is an aerodynamicist for Chrysler Corp. Space Division in New Orleans . . . A daughter, Donna Leigh, to Mr. & Mrs. William W. Wood of Florence on Nov. 6. She joins sister Wanda, 2 . . . A daughter, Carol Ann, to Dr. & Mrs. Edward Tyler Nichols of Mobile on Oct. 6 . . . A son, Jon Charles, to Lt./jg & Mrs. Robert T. Bunnell on Nov. 21. He joins big brother Robert Seatt, 2½. Lt. Bunnell is on duty aboard the U.S.S. Conyngham (DDG-17) stationed in Norfolk, Va.

1962—Lt. John B. Givhan of Safford, who was seriously wounded in South Viet Nam, has been presented a Distinguished Service Citation by Alabama Gov. George C. Wallace.

OUTSTANDING YOUNG FARM FAMILY—J. D. Hays, president of the Alabama Farm Bureau, presents a plaque to Romona and Tom Fuqua '61 selected by the Bureau as the outstanding young farm family of Alabama for the year of 1963.

Bureau Says Fuqua Family Tops

Friends and relatives in Barbour County were not surprised that Tom and Romona Fuqua were recently designated by the Alabama Farm Bureau as The Outstanding Young Farm Family of 1963. Both have shown a keen interest in rural living since early childhood. They were 4-H Club members in grammar school. Tom belonged to the FFA in high school and had beef cattle and swine projects. Romona was a Future Homemaker and had home economics projects in sewing, cooking, and food preservation.

Tom and Romona were married in 1960 while he was studying agricultural education at Auburn. He graduated in 1961, and returned to the home farm where Tom entered into partnership with his father in the operation of a 600-acre general farm. One of their

first projects was the remodeling of an old house for a home.

Tom and Romona are civic leaders in the Blue Springs Community. Tom belongs to the Ruritan Club. He has been active in Boy Scout and 4-H Foundation drives. Professionally, he holds the American Farmer degree and is active in the work of the county and state Farm Bureau and the Cattlemen's Association. Romona is a leader in the local Home Demonstration Club.

They belong to the Spring Hill Baptist Church. Tom has served as assistant adult teacher, assistant music director, and assistant Training Union Director. Romona has been a teacher in the junior and beginner departments.

In accepting the award, Tom quoted from the FFA creed, saying simply, "I believe in the future of farming!"

ALUMNALITIES—Continued

Joel Hardee of Auburn is secretary-treasurer of the Alabama Soil Fertility Society.

2/Lt. Michael L. Cummings has completed the rigorous USAF survival and special training course at Stead AFB, Nev. A pilot, Lt. Cummings has been reassigned to Luke AFB, Ariz. He is married to Patricia Kay McLain '63.

Ens. John A. Dorgan, Jr., is Special Services Officer in X-Division on the USS Saratoga.

1/Lt. William E. Welch, a navigator, has completed the rigorous USAF survival and special training course at Stead AFB, Nev., and has been assigned to Shaw AFB, S.C.

David Julian Vance is an electronics engineer with WRAMA at Warner Robins, Ga.

A. B. Webb, Jr., is now associated with Henry R. Hudson, Associated Consulting Engineers, in Montgomery.

Mr. & Mrs. Bennie L. Waldrop (Linda McGill '64) are now living in Birmingham where he is employed in the Subscriber Accounts Dept. of Blue Cross-Blue Shield of Alabama. They have two children—Tracy Leigh, 3, and Terry Lynn, 20 months—and are anticipating number three this month.

George H. Gray is now a sales representative in Philadelphia, Pa., for Stockham Valves & Fittings.

James H. Tice, who is with Connors Steel Division of the H. K. Porter Co., has been transferred from Birmingham to Atlanta.

George M. Roberts, III, is with Boeing Aircraft's Aero-Space Division in Huntsville.

1/Lt. & Mrs. Dennis Rodney Powell (Diane Crawley '62) have been reassigned to Ramstein AFB, Germany, fol-

In Memoriam — '99 Through '48

Charles W. Collins '99 died at his home near Washington, D.C., on Dec. 14. Distinguished as a writer, lawyer, and banker, Mr. Collins studied at Auburn, the University of Chicago, and Harvard.

He served as director of the Legislative Reference Service at the Library of Congress, as Law Librarian of Congress, and later as Librarian of the Supreme Court. He was legal adviser for a number of congressional committees, counsel to the Comptroller of the Currency, and counsel to the Bank of America in 1927. Mr. Collins wrote several books and articles on banking and budget.

He is survived by his wife and his seven children.

Jack V. Pierson '04 died Nov. 26 according to information received from the postmaster in Atlanta.

Robert E. Hodnette '08 died Nov. 22 after a long illness. He studied at Auburn, the University of Alabama, and Columbia University. After serving 33 years as principal of Escambia County High School in Atmore, Mr. Hodnette retired and moved to Pensacola, Fla.

Survivors include his widow; one daughter, Mrs. Ralph Foster; two sons, Dr. Hodnette and Robert E. Hodnette Jr. '34; three brothers, W. P. Hodnette, John Hodnette '22 and Pierce Hodnette '17; and three sisters.

Benjamin M. Goldgar '09 died Nov. 29 in Macon, Ga.

John Andrews '10 died Dec. 20 in LaFayette from a heart attack.

Charles F. Grove '15 died Dec. 23 according to information received from his son.

Simon S. Sparkman '15 died June 20 according to information received from his wife.

Charles H. Gilmour '15 died Nov. 14 at his home in Marietta, Ga. Surviving are his widow, two daughters, Gloria Pattillo '57 and Charlene Emlen '59, and four grandchildren.

Thomas O. Robertson '15 died suddenly on Nov. 1 in Washington, D.C. Surviving is his brother Mac Robertson '11 of Dalton, Ga.

Sam N. Crosby '16 died Dec. 7 in Ozark. He was active in civic, social, and religious affairs and was one of the original organizers and directors of the Bank of Ozark. He is survived by his widow.

James D. Ratchford '19 died Dec. 3 at his home in LaFayette. Survivors include his widow and a brother, McClellan Ratchford '14.

John L. Whatley '21 died Nov. 7 from a heart attack. He was formerly mayor of Opelika and an Alabama state senator. President of the Dairyland Farms Creamery until its sale several years ago, he retained his ownership of Dairyland Farms.

Survivors include his widow, Mrs. Mary Haden Whatley '24; two daughters, Mrs. Curtis Springer and Mrs. Harry

lowing an assignment at Torrejon AFB, Spain. They have a daughter, Lisa Margaret, who was born July 7, 1964.

1/Lt. Clyde C. Pearson, Jr., of Montgomery was recently awarded the Army Commendation Medal by the Secretary of the Army for "exceptionally meritorious service" as commanding officer

(Continued on page 15)

Coons Jr. '52; five brothers, T. E. Whatley '25, J. D. Whatley Sr. '17, Walter Whatley '20, Hugh Whatley '28, and Leon Whatley '32; a sister, Mrs. Urban Whatley '37, and six grandchildren.

Earle G. Lutz '24 died recently in Daphne.

E. Bruce Bird '24 died Oct. 3 in Champaign, Ill., after an illness of ten months. He is survived by his widow, four daughters, a sister and a brother, Marion Bird '25.

James Shelton Dunn '25 died Nov. 8 at his home in Evergreen. Survivors include his widow, a son, a daughter, a brother and two sisters.

A. T. Kendrick Jr. '26 died Nov. 9 in Winchester, Ky. Survivors include his widow and two sons.

Mrs. Mary Allen Stough '27 died Nov. 22 in Bay Minette. Survivors include her husband, George S. Stough '28; two sons, George Stough Jr. '58 and William Stough; and a daughter, Mrs. George Atkins '54.

Clyde A. Johnson '27 died Dec. 6 in Springfield, Ill.

Paul S. Turner '27 died Nov. 27 after a brief illness. Survivors include the widow; one son, Paul B. Turner '58; and one daughter, Mrs. Jane Jordan.

Frank Edward Martin '28 died Dec. 17 at his home in Danville. His widow, the former Clara B. Briscoe '28, survives him.

Harry C. Walters '30 of Samson died Dec. 30 following a brief illness.

Howard Chappelle '31 died Dec. 12 in Trussville. He is survived by his widow, one son, one grandson, and two brothers.

Albert H. Quinn '36 of Auburn died Dec. 19 in Montgomery. Survivors include his wife; three brothers, Chester Quinn, Era Quinn '52, and Justin Quinn; and six sisters.

John P. O'Malley '36 of Scranton, Penn., died in a New York hospital on March 27. A well-known consulting engineer, Mr. O'Malley had been in ill health for several years. He is survived by his wife and brother.

Wilson W. Sharmon '40 of Camp Hill died Nov. 2.

Guy R. Lynn '40 of Huntsville died Dec. 10 at his home. Active in agricultural and church work, Mr. Lynn was a former president of the Civitan Club and director of Huntsville Hospital.

Survivors include his widow, a brother, and five sisters.

Neal B. Sims '42 of Birmingham died recently according to information received from his wife.

Clive J. Luke '48 of Birmingham died Nov. 22. While in the armed service during World War II, Mr. Luke lost both of his legs as the result of an explosion. In spite of his handicap, he returned to Auburn to receive his degree and later became a prominent engineer. His survivors include his widow, four daughters, three sons, and one brother, Kenneth E. Luke '51.

Robert F. Snellings '48 of Cussetta, Ga., died Oct. 23, according to information received from his brother.

ALUMNALITIES—Continued

of an engineer company. The award was presented at Ft. Campbell, Ky., upon completion of Pearson's two-year tour of duty in the U. S. Army Corps of Engineers.

Married: Bettymae House to Dr. Robert Gange in Montgomery in June. They are living in Newport Beach, Calif., where she is working with the Newport Beach School District . . . Anita Ann Williams to William Lee Hildebrandt in North Charleston, S. C., on Dec. 5. They are living at Ft. Bragg, N. C. . . . Gladys R. McCallie to B. Franklin Davis, IV, on Nov. 14. They are living in Chattanooga, Tenn.

Born: A son, William Terry, Jr., to Mr. & Mrs. William Terry Bullard of Dothan on Nov. 11 . . . A daughter, Taffy Lee, to Mr. & Mrs. Howard L. Marsh of Tampa, Fla., on Oct. 2. Mr. Marsh was recently transferred to Tampa by the Foods and Drug Administration . . . A son, James Randall, to Lt. & Mrs. James L. Brown (Martha Royal '61) of Kileen, Tex., on Nov. 14.

1963—Barbara Jean Combs is a trainee under the Army Civilian Career Program for Civilian Personnel Administration at Redstone Arsenal in Huntsville.

Dr. Milton K. Cummings, president of Brown Engineering Co. in Huntsville, recently received an award for outstanding community service which was presented by the Huntsville-Madison County Chamber of Commerce.

Herman Johnson, Jr., is employed in the Project Engineering Department at the International Paper Co. in Mobile.

2/Lt. Jack R. Armistead has entered U. S. Air Force navigator training at James Connally AFB, Tex.

Jerry G. Hester recently moved from Cantonment, Fla., to Gadsden, where he is working for the U. S. Department of Agriculture with the Farmers Home Administration. He and his wife have a son, Gerald.

Gordon W. Hutt is attending the Navy Nuclear Power School, West Coast Branch (a division of Rickover Polytechnic Institute) at Vallejo, Calif.

Tony L. Tarver of Langdale has been named Maintenance Engineer in charge of the Mechanical Department at Service Division of West Point Manufacturing Co. He and his wife (Gloria Lanell Hardy '64) have a four-year-old son, Gregory David.

RECRUITING OFFICER—Marine 2/Lt. Dianne L. Marsh '63 was back on campus in November recruiting feminine officer material for the Marine Corps. Her Auburn visit was one of several made on a tour of Alabama colleges. A native of Anniston, Lt. Marsh studied Business Administration here and after her recruiting tour has gone to Marine Corps Base, Camp LeJeune, N. C., for duty in data processing.
